DECLARATION.

No. 3761.—The 5th October 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, *viz.*, for the Phularitand siding and that portion of the Katras-Khanudih extension of the East Indian Railway, which lies between mile 180 feet 3,289 and mile 181 feet 4,037, edged with pink on the plan, and whereas coal mines are situate under the said land, and whereas the Phularitand Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 13 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Phularitand Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Phularitand Coal Company, Limited, in the manner and subject to the restrictions below specified, viz.:—

(*a*) No gallery shall be driven where the distance from the surface to the top of the gallery, if driven, is less than 50 feet;

(*b*) Where the distance from the surface to the top of the gallery is 50 feet or more, galleries may be driven 12 feet high and 10 feet wide, with centres not less than 70 feet, leaving pillars of solid coal not less than 60 feet square, for the support of the acquired land;

(*c*) Manholes not exceeding 6 feet in height, by 3 feet in width, by 4 feet in depth, may be made where required by any rule made under the Indian Mines Act, 1901.

(*d*) Any inrush of water, quicksand or soft material, shall be reported to the Chief Inspector of Mines without delay.

(c) These restrictions apply to No. 13 seam only, and to the area edged with pink upon the plan, and the Phularitand Coal Company, Limited, shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under this area or to work any other area of acquired land.

The plan marked L.A.M.A. No. 161, signed by the Chief Inspector of Mines, may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

Calcutta.

No. 3050P.D.—The 1st October 1910.—Whereas it appears to the Lieutenant-Governor that a Bengali book entitled "Tilaker Mokaddama-O-Shankshipta Jiban Charitra," written by Sakharam Ganesh Deoshkar and published by him from 71-1, Sukea Street, Calcutta, and printed by Messrs. Mukharji and Chatarji, at the Metcalfe Press, 76, Balaram De's Street, Calcutta, contains words of the nature described in section 4, sub-section (1) of the Indian Press Act, 1910 (I of 1910), inasmuch as they have a tendency to excite disaffection towards His Majesty or the Government established by law in British India:

Now, therefore, in exercise of the power conferred by section 18, sub-section (1) of the said Act, the Lieutenant-Governor hereby declares all copies of the said book to be forfeited to His Majesty.

No. 3052 P.—D.—The 3rd October 1910.—The Lieutenant-Governor has had under consideration the question whether any action should be taken by Government in connection with the demonstrations which, as has been stated in the press, are proposed to be held on the 17th October in connection with the partition of Bengal.

2. The anti-partition agitation stands on an entirely different footing from the boycott. In itself it is in no way an unconstitutional movement. It purports to be no more than the organized expression of disapproval of an administrative measure. If any person entertains a feeling of disapproval of that measure, he is at liberty to hold his opinion, and also to express it, provided always that he does so in an orderly manner and abstains from seeking to cause disaffection towards Government or ill-feeling between different sections of the people. So long as these conditions are observed, there is no ground for interference: and in this view the Lieutenant-Governor has decided that his duty lies in not exercising his powers under the law for the purpose of preventing the projected demonstrations.

3. Nevertheless, His Honour desires that it may be generally known that in his judgment the continuance of the anti-partition agitation is inexpedient, and is regarded with disapproval by Government. The partition has been declared, on the highest authority, to be a settled fact: all thinking persons must be well aware that there is no likelihood of its being reversed or modified; and to persevere in agitating against it is a mere waste of energy that might be more profitably employed.

4. A much more serious evil is that in an agitation of this character there is a constant danger lest the movement may be misused by evil-disposed persons for the purpose of exciting hatred and hostility towards the Government, of reviving mischievous propaganda like the boycott, of drawing into the net students and others who have no business in politics, and generally of manipulating it in such a manner as to constitute a menace to the administration. During the demonstrations held in 1909, portraits of Profulla Chaki, Khudiram Bose and Kanai Lal Dutt were exhibited; a leaflet of objectionable character was distributed; while, notwithstanding the efforts made by the University, by College authorities, and by the National Council of Education, a large number of students attended the proceedings. The Lieutenant-Governor readily believes that these acts were done without the knowledge

and against the will of those who organized the demonstrations, and who were doubtless genuinely anxious to conduct them in a constitutional manner. That fact merely serves to emphasize the inability of those persons to control the forces which they had set in motion.

5. While therefore the Lieutenant-Governor has decided, for the reasons set forth above, not to prohibit or restrict the demonstrations that may be contemplated on the present occasion, he desires to make it perfectly clear to all concerned that they are discountenanced by Government, and to make it known that, in his judgment, all loyal and law-abiding persons will do well to abstain from any kind of participation in them.

6. As regards the future, the Lieutenant-Governor will be guided in large measure by the course of events in the present. He has resolved to permit the demonstrations to take place in the hope that those who are responsible for them will be able to comply with the conditions that have been indicated above, viz., that the proceedings shall be orderly throughout; that the occasion shall not be utilized, directly or indirectly, for the propagation of seditious doctrines or the glorification of boycott, violence, or any form of political outrage; and that school boys and college students shall be wholly excluded from taking part in them, either as participants or spectators. If these conditions are not fulfilled, it will afford evidence that it is not in the power of the originators of the movement to confine it within constitutional bounds, and the question of direct intervention by Government will be forced to an issue.

Offg. Chief Secy. to the Govt. of Bengal.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Karachi harbour—Information with regard to Pilots.

No. 397 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1161 of 1910), are republished:—

Position.—Manora lighthouse, lat. 24° 47½′ N., long. 66° 58½′ E.
Details.—Masters of vessels are advised that the best position in which to await the Pilot, during the S.W. monsoon, is with Manora lighthouse bearing N.E., distant about 2 miles. On no account should the lighthouse be brought to bear anything westward of North owing to the heavy rollers and swell on the edge of the flats.

Pilots will always be sent off as quickly as possible, but occasional delay must be expected in thick weather owing to the difficulty of sighting vessels from the Look-out station until they are close in.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE INDIGO CROP OF BENGAL, 1910.

(On an average of the five years ending 1908-09 the area under indigo in the territory to which this forecast relates represents about 89·2 per cent. of the total area under indigo in British India.)

Explanatory.—With the exception of a few acres in Nadia indigo is cultivated only in Bihar districts, chiefly in North Bihar and Purnea.

Character of the season.—Sowings began at the normal time, and in the early part of the season weather conditions were generally favourable. But the defective rainfall between March to May somewhat affected the growth of the crop. In July and August excessive rain and floods caused considerable damage to the crop in the important districts of North Bihar and in Purnea. Injury by insects was caused in Muzaffarpur.

Area sown.—The area sown this year is reported to be 113,200 acres against 107,400 acres of last year. The increase, which is greatest in North Bihar, is apparently due to the favourable weather in the sowing season.

Outturn.—In the important districts the percentage outturn of the crop has been reported as follows :—

Champaran and Musaffarpur	...	...	68	per cent.
Darbhanga and Purnea	...	...	50	„
Saran	...	...	90	„
Monghyr	...	...	75	„

The outturn of the crop in North Bihar and Monghyr works out to 68 per cent. and in other minor districts in Bihar and Bengal to 59 per cent. The aggregate for the whole province comes to 67 per cent. According to the District Officers' estimate the total yield of the crop for the province as a whole comes to 20,185 factory maunds against 17,007 factory maunds of last year.

The date of sowing was normal. The condition of the crop was hopeful in the beginning of the season but owing to want of rain from March to the end of June the plants did not grow well.	

Monghyr ...	2,510,030	1,582,500	6,900	6,500	61	73	985,852	1900 to 1907.	17,755	August and September.	The general condition of the crop is fair. The date of sowing was normal.

All the indigo factories in the Supaul, Madhipura and Sadar sub-divisions have given up indigo cultivation. The district return is thus the return for the Banka sub-division only; hence the decrease in area in column 5. The figures in columns 2 and 3 have been revised on the basis of cadastral survey figures.
Purnea ...	3,196,158	1,694,400	10,500	19,000	23	50	2,924,779	1901-02 and 1905-06.	20,152	June and July.	The weather and general condition of the crop are better than that of last year, but considerable damage has been done in some localities by heavy floods. Sowings were early this year. The decrease in the area sown is due to the closing of Gendwara concern from 1909-10 which had an area of 5,000 acres.

* The report is for the week ending the 24th September 1910.

General Summary.—The rainfall was general over the Province. The fall was heavy in Cuttack, Balasore, Puri and also in Manbhum and Singhbhum, moderate in Hooghly, Khulna, Muzaffarpur, Darbhanga, Purnea, Sonthal Parganas, Angul, Ranchi and light in the rest of the Province. More rain is wanted for standing crops in Bankura, Midnapore, Hooghly, 24-Parganas and Murshidabad. Harvesting of *bhadoi* crops is in progress. Weeding of winter rice continues. Condition of winter rice and other standing crops is good in most districts. The price of common rice has fallen in Burdwan, Midnapore, Nadia, Murshidabad, Jessore, Patna, Gaya, Saran, Muzaffarpur, Darbhanga, Sonthal Parganas, Angul, Hazaribagh and Palamau and has been stationary in the remaining districts. Cattle-disease is reported from Midnapore, Patna, Gaya, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, Angul, Puri, Sambalpur, Hazaribagh, Ranchi and Manbhum. The fodder and water-supply is sufficient throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast ; p, passing temporary showers ; d, drizzling rain ; t, thunder; K, thunderstorm ; ↗, strong wind ; dew symbol, dew; ≡, fog.

DECLARATION.

No. 3811.—The 30th September 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Kurkend Siding (off Khoira Siding), Damuda Branch, East Indian Railway, which lies between mile 172 feet 4,032 and mile 172 feet 4,618, edged with pink upon the plan, and whereas coal mines are situate under the said land, and whereas the Sudamdih Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 13 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Sudamdih Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (*b*) of the abovementioned Act XVIII of 1885, that the working shall be carried on by the said Sudamdih Coal Company, Limited, in the manner and subject to the restrictions below specified, viz:—

(*a*) Galleries may be driven 10 feet wide and 12 feet high, with centres not less than 60 feet apart, forming pillars of solid coal not less than 50 feet square to be left unworked for the support of the acquired land.

(*b*) Manholes not exceeding 6 feet in height by 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*c*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*d*) These restrictions apply to No. 13 seam only, and to the area edged with pink upon the plan, and the Sudamdih Coal Company, Limited, shall give notice under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under this area, or to work coal under any other area of acquired land.

The plan marked L. A. M. A. No. 164 signed by the Chief Inspector of Mines may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

NOTIFICATION.

MISCELLANEOUS REVENUE DEPARTMENT.

OPIUM BRANCH.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

Dated Calcutta, the 10th October 1910.

WITH reference to Government Notification No. 4498.R., dated the 29th July 1910, appointing, under section 11 (*c*) of the Sea Customs Act, 1878, the Port Commissioners' Jetty No. 7 and their Docks at Kidderpore as wharves for the shipment of opium, it is hereby notified for general information that, in supersession of the directions published in the Notification No. 859R., dated the 28th January 1904, as amended by Notification No. 14, dated the 29th July 1904, the following revised directions under rule 11 of the rules made by Government under sections 5 and 13 of the Opium Act, I of 1878, and published in Notification No. 1225S R., dated 21st February 1898, are laid down to regulate the export of opium by sea from Calcutta:—

1. Opium may be exported by sea from the port of Calcutta if it has been purchased from the Government at a public sale held by the Board of Revenue, and is covered by a Delivery Order and a certificate granted by the Board. A Delivery Order is an order of the Board addressed to the Intendant of the Presidency Opium Godowns for delivery of a certain number of opium chests; and a certificate is a document authorising the Collector of Customs to allow the shipment of the opium specified in it. The currency of a certificate is

four days, exclusive of its date of issue, and exclusive of Sundays and Custom House holidays. No Delivery Order or certificate for the export of opium will be issued on the same day on which the opium has been sold.

2. A shipper wishing to export opium shall first present his Delivery Order to the Intendant of the opium godowns, and take out his chests of opium from the stacks and arrange them in the corridor, where he will mark them with his distinctive marks for shipment. Before removing the chests from the corridor the shipper shall obtain a pass from the Collector of Customs by presenting at the Custom House the certificate granted him by the Board, accompanied with a shipping bill (in duplicate) printed in red ink. The Custom House pass, which will be granted on the shipping bill, shall then be shown to the Intendant, who will then give permission for the removal of the opium chests for shipment. In the case of opium chests which are passed out through the Custom House gate the shipper is also to show the Custom House pass to the gate officer of the Custom House before taking away his chests.

3. If any opium covered by a certificate is not removed from the Presidency Godowns within a period of four days from the date of the issue of the certificate, the holder of the certificate must, within 24 hours next after the expiry of the said period, apply to the Board of Revenue for a fresh certificate.

4. If any opium has been removed from the Presidency Godowns within the said period of four days, and has been passed out by the Customs authorities for export, but has not been shipped within the said period by reason of the opium being shut out from the ship in which it was intended to be shipped, or for any other reason, the shipper must, without delay, apply to the Board for a fresh certificate, and must, pending the issue of such certificate, either (*a*) return the opium to the Presidency Godowns, with the permission of the Collector of Customs, or (*b*) keep it, with the permission of the said Collector, under sealed hatches at a mooring ghat to be fixed by the Superintendent of the Calcutta Customs Preventive Service.

5. (*a*) On ordinary working days no Treasury receipt in payment for opium, and no Delivery Order for cancellation will be accepted by the Board after 3-30 P.M., and no certificate will be granted after 4 P.M.

(*b*) On Saturdays no receipt or Delivery Order will be accepted after 1-30 P.M., and no certificate granted after 2 P.M.

(*c*) A certificate is not transferable, and no one but the person named on the face of it by the Board will be entitled to export opium on it.

6. The certificates granted by the Board are to be returned to the Board, within thirty days, duly cancelled.

7. Opium intended for export, which is not cleared from the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore as the case may be, before 4-30 P.M., shall be conveyed to the steamer in covered cargo-boats with properly secured hatches.

8. On any day on which clearances are made from the Opium Godowns the Intendant shall give notice to the Collector of Customs, who will at once appoint a Preventive Officer to be in attendance at 4-30 P.M., at the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore, as the case may be, to perform the duties mentioned in rule 9. When the Intendant is aware that clearances will be made from the godown after 4-30 P.M., he shall make immediate report to the Collector of Customs of the probable number of chests that will be removed after that hour, and the Collector will appoint one or more additional Preventive Officers to be in attendance for the performance of the duties above referred to.

9. In respect of opium chests not placed on cargo-boats before 4-30 P.M. for conveyance to the steamer the Preventive Officer at the Port Commissioners' Jetty No. 7 or the Docks at Kidderpore, as the case may be, shall perform the duties below named. He shall supervise the loading in covered cargo-boats with properly secured hatches of all opium chests lying at No. 7 Jetty or the Kidderpore Docks after 4-30 P.M., or brought there after 4-30 P.M. He shall see all such chests placed in the hold of covered cargo-boats and shall then secure and seal, with a distinctive mark, the hatches or other openings or doors of such cargo-boats by which access may be had to the hold, before allowing the boat to proceed to the steamer.

10. The Preventive Officer on board the receiving steamer shall carefully examine the seals affixed to the hatches or other openings or doors of a cargo-boat laden with opium, as soon as the boat arrives alongside the vessel, and shall not allow the seals to be broken in any case until he is prepared to receive the opium on board, and to superintend the removal of the chests from the hold of the cargo-boat.

11. If it appears to the Preventive Officer on board the receiving vessel that the seals placed on the hatches or other openings or doors of a cargo-boat have been broken in transit, or have been in any way tampered with, he shall immediately bring the matter to the notice of the officer in charge of the vessel, and shall examine each chest carefully. If any theft of opium is discovered, the Preventive Officer shall make an immediate report to the River Police and to the Collector of Customs, mentioning at the same time the number of the cargo-boat and the name of the owner and *manjhi*.

12. The procedure described in rules 7, 9, 10 and 11, both inclusive, is enjoined especially in the case of opium cleared from the godowns after 4-30 P.M., but it may, on application by the shipper to the Intendant, be followed in the case of opium cleared before that time.

13. Rules regarding fees to be paid for delivery and clearance of opium from the Opium Godowns outside regulation hours, and for return of opium to the godowns which has been shut out by steamers, will be found in the Board's Notification No. 3386B., dated the 27th June 1910.

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJI,

Secretary.

[*Reprinted from the "Gazette of India" of the 1st October 1910.*]

The following orders, issued by the Government of India in the Legislative Department, are republished for general information.

E. V. LEVINGE,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATIONS.

Dated Simla, the 28th September 1910.

No. 48.—In exercise of the power conferred by section 6 of the Indian Councils Act, 1909 (9 Edw. 7, ch. 4), the Governor-General in Council is pleased, with the approval of the Secretary of State for India in Council, to direct that the following Schedule shall be substituted for Schedule VII of the Regulations for the nomination and election of members of the Legislative Council of the Lieutenant-Governor of Bengal, which were published with this Department's Notification No. 17, dated the 15th November 1909, namely :—

SCHEDULE VII.

[See Regulation II, sub-head (*vii*), and Regulation III.]

RULES FOR THE ELECTION OF MEMBERS BY THE BENGAL CHAMBER OF COMMERCE.

Preliminary.

1. "Returning officer" means the Secretary to the Bengal Chamber of Commerce, and includes any officer of the Chamber deputed for the time being by the Secretary to perform his duties under these rules.

Qualifications of electors.

2. The members specified in Regulation II, sub-head (*vii*), shall be elected by the votes of persons who—

(*a*) are permanent members of the Bengal Chamber of Commerce ; or
(*b*) are entitled to exercise the rights and privileges of permanent membership of the said Chamber on behalf, and in the name, of any firm or Joint-Stock Company or other Corporation,

and who have a place of residence in India (hereinafter referred to as "electors").

Qualifications and nomination of candidates.

3. (1) Any person not ineligible for election under these Regulations who is qualified to vote under this schedule may be nominated as a candidate for election.

(2) Every nomination shall be made by an elector, by letter sent to the Returning officer.

(3) The Returning officer shall ascertain in respect of every person so nominated whether he is willing to serve if elected.

(4) Any person who has been nominated for election may withdraw his candidature at any time before the day appointed for the counting of votes.

Voting.

4. (1) If the number of nominated candidates does not exceed the number of candidates to be elected, the Returning officer shall forthwith declare such candidate or candidates to be elected.

(2) If the number of nominated candidates exceeds the number of candidates to be elected, the Returning officer shall send to each elector a list of the nominated candidates and a voting paper.

5. Any elector may send his voting paper to the Returning officer after recording his vote thereon:

Provided that voting papers which are not received by the Returning officer before the day appointed for the counting of votes shall be rejected.

Counting of votes and declaration of result.

6. (1) On receiving the voting papers, the Returning officer shall examine them to see whether they have been correctly filled up.

(2) The Returning officer shall endorse "rejected" on any voting paper which he may reject as being imperfect.

7. (1) The Returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative duly authorized by him in writing, to watch the process of counting.

( ) If an objection is made to any voting paper as being imperfect, or to the rejection by the Returning officer of a voting paper, it shall be decided at once by the Returning officer, whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(4) In such cases the Returning officer shall record on the voting paper the nature of the objection and his decision thereon.

8. (1) When the counting of the votes has been completed, the Returning officer shall forthwith declare the candidate or candidates to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning officer and in such manner as he may determine.

9. Upon the completion of the counting and after the result has been declared by him, the Returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

10 The Returning officer shall without delay report the result of the election to the Local Government, and the name or names of the candidate or candidates elected shall be published in the local official Gazette.

Appointment of dates, times and places.

11. The Local Government shall appoint, and shall notify in such manner as it thinks fit, such date, and (if necessary) such time and place, as it may think suitable for each of the following proceedings, namely:—

(*a*) the sending of nominations under rule 3 (2);
(*b*) the sending of lists and voting papers under rule 4 (2);
(*c*) the sending of voting papers under rule 5; and
(*d*) the counting of votes under rule 7 (1).

No. 49.—In exercise of the power conferred by section 6 of the Indian Councils Act, 1909 (9 Edw. 7, ch. 4), the Governor-General in Council is pleased, with the approval of the Secretary of State for India in Council, to direct that the following Schedule shall be substituted for Schedule XV of the Regulations for the nomination and election of Additional Members of the Legislative Council of the Governor-General of India, which were

published with this Department's Notification No. 14, dated the 15th November 1909, namely:—

SCHEDULE XV.

[See Regulation II, sub-head (xx), and Regulation III.]

RULES FOR THE ELECTION OF AN ADDITIONAL MEMBER BY THE BENGAL CHAMBER OF COMMERCE.

Preliminary.

1. "Returning officer" means the Secretary to the Bengal Chamber of Commerce, and includes any officer of the Chamber deputed for the time being by the Secretary to perform his duties under these rules.

Qualifications of electors.

2. The Member specified in Regulation II, sub-head (xx), shall be elected by the votes of persons who—

(a) are permanent members of the Bengal Chamber of Commerce, or

(b) are entitled to exercise the rights and privileges of permanent membership of the said Chamber on behalf, and in the name, of any firm or Joint-Stock Company or other Corporation,

and who have a place of residence in India (hereinafter referred to as "electors").

Qualifications and nomination of candidates.

3. (1) Any person not ineligible for election under these Regulations who is qualified to vote under this schedule may be nominated as a candidate for election.

(2) Every nomination shall be made by an elector, by letter sent to the Returning officer.

(3) The Returning officer shall ascertain in respect of every person so nominated whether he is willing to serve if elected.

(4) Any person who has been nominated for election may withdraw his candidature at any time before the day appointed for the counting of votes.

Voting.

4. (1) If one candidate only is duly nominated, the Returning officer shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the Returning officer shall send to each elector a list of the nominated candidates and a voting paper.

5. Any elector may send his voting paper to the Returning officer after recording his vote thereon:

Provided that voting papers which are not received by the Returning officer before the day appointed for the counting of votes shall be rejected.

Counting of votes and declaration of result.

6. (1) On receiving the voting papers, the Returing officer shall examine them to see whether they have been correctly filled up.

(2) The Returning officer shall endorse "rejected" on any voting paper which he may reject as being imperfect.

7. (1) The Returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative duly authorized by him in writing, to watch the process of counting.

(3) If an objection is made to any voting paper as being imperfect, or to the rejection by the Returning officer of a voting paper, it shall be decided at once by the Returning officer, whose decision shall be final, subject to reversal by the Governor-General in Council in the event of the election being questioned under Regulation XVI.

(4) In such cases the Returning officer shall record on the voting paper the nature of the objection and his decision thereon.

8. (1) When the counting of the votes has been completed, the Returning officer shall forthwith declare the candidate to whom the largest number of the votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning officer and in such manner as he may determine.

9. Upon the completion of the counting and after the result has been declared by him, the Returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

10. The Returning officer shall without delay report the result of the election to the Local Government and also to the Secretary to the Government of India in the Legislative Department, and the name of the candidate elected shall be published in the local official Gazette and in the *Gazette of India.*

Appointment of dates, times and places.

11. The Local Government shall appoint, and shall notify in such manner as it thinks fit, such date, and (if necessary) such time and place as it may think suitable for each of the following proceedings, namely,—

(a) the sending of nominations under rule 3 (2);
(b) the sending of lists and voting papers under rule 4 (2);
(c) the sending of voting papers under rule 5; and
(d) the counting of votes under rule 7 (1).

An open Competitive Examination for admission to the Civil Service of India will be held in London, under the subjoined Regulations, commencing on the 1st August 1911.

The number of persons to be selected at this examination will be announced hereafter.

No person will be admitted to compete from whom the Secretary, Civil Service Commission, has not received, on or before the 1st July 1911 *an application on the prescribed form, a copy of which is sent herewith. No question as to the delay or loss in the post of any such application form can be entertained. Candidates who delay their applications until the last days will do so at their own risk.*

Acknowledgments of such Application Forms are sent, and any Candidate who has filled up and returned the printed Application Form but has not received an acknowledgement of it within four complete days should at once write to the Secretary, Civil Service Commission, Burlington Gardens, London, W. Failure to comply with this provision will deprive the candidate of any claim to consideration.

The Order for admission to the Examination will be posted on the 20th July 1911 to the address given on the Form of Application. It will contain instructions as to the time and place at which Candidates will be required to attend and as to the manner in which the fee (£6) is to be paid.

CIVIL SERVICE COMMISSION,
August 1910.

REGULATIONS.

*** The following Regulations, made by the Secretary of State for India in Council, are liable to alteration from year to year:—*

1. An examination for admission to the Civil Service of India, open to all qualified persons, will be held in London in August of each year for such number of appointments to that Service as the Secretary of State may on each occasion determine. The date of the Examination and the number of appointments to be made for each Province will be announced beforehand by the Civil Service Commissioners.

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners—

(i) That he is a natural-born subject of His Majesty.
(ii) That he had attained the age of twenty-two, and had not attained the age of twenty-four on the first day of August of the year in which the Examination is held.

[N.B.—In the case of Natives of India it will be necessary for a candidate to obtain a certificate of age and nationality issued under Notification of the Government of India, No. 2252, dated 21st August 1888, as amended by Notification No. 404, dated 19th May 1898, and signed should he be a resident in British India, by the Secretary to Government of the Province, or the Commissioner of the Division within which his family resides, or should he reside in a Native State, by the highest Political Officer accredited to the State in which his family resides.]

(iii) That he has no disease, constitutional affection, or bodily infirmity, unfitting him, or likely to unfit him, for the Civil Service of India.*
(iv) That he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the candidate, on payment of the prescribed fee, will be admitted to the examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects he will be ineligible for admission to the Civil Service of India, and, if already selected, will be removed from the position of a probationer.

From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

Consistently with the limitations specified above, Candidates are at liberty to name any of the foregoing subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000 If this maximum is exceeded by a Candidate's selection he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible a further deduction will on that account, be made from the total marks otherwise accruing to him (*a*).

5. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Civil Service of India, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate.

6. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (*b*) :—

Compulsory—

		Marks.
1.	Indian Penal Code	400
2.	Code of Criminal Procedure	200
3.	The Indian Evidence Act	200
4.	Indian History	400

(*a*) It is notified for general information that the number of marks deducted for bad handwriting may be considerable.
(*b*) Instructions showing the extent of the examination, will be issued to Selected Candidates as soon as possible after the result of the Open Competition is declared.

		Marks.
*5.	The principal Vernacular Language of the Province to which the Candidate is assigned	400
Optional.	[Not more than one of the following subjects] :—	
1.	Hindu and Muhammadan Law	450
†2.	Sanskrit	400
†3.	Arabic	400
4.	Persian	400
5.	Hindustani (for Candidates assigned to the Province of Burma only)	400

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination.*"

If any candidate is prevented by sickness or any other adequate cause from attending such examination the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

7. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

The examinations in riding will be held as follows:—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination. Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fail to obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, will, on their arrival in India, be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of Selected Candidates.

8. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 6, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

9. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st July (or, if that date should fall upon a Sunday or public holiday, then, on or before the first day thereafter on which their office is open), in the year in which the examination is to be held, an application in the handwriting of the Candidate, on the prescribed form.

---

* The principal Vernacular Language prescribed for each Province to which candidates are assigned is as follows:—

For the United Provinces of Agra and Oudh, the Punjab, and the Central Provinces ..	Hindustani.
For Bengal ... ... (at the option of the Candidate).	Hindustani or Bengali.
For Eastern Bengal and Assam ... ... (unless it is the Candidate's mother-tongue).	Bengali
For Burma	Burmese.
For Bombay ... ... (unless it is the Candidate's mother-tongue).	Marathi.
For Madras ... ... (at the option of the Candidate).	Tamil or Telugu.

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari characters.

A Candidate assigned to Eastern Bengal and Assam, whose mother-tongue is Bengali, must offer for examination Hindustani; a Candidate assigned to Bombay, whose mother-tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Bengal or Madras, whose mother-tongue is either of the languages shown against his Province, must offer the other for examination.

† These subjects may not be offered by any Candidate who has offered them at the Open Competition.

The Civil Service Commissioners are authorised by the Secretary of State for India in Council to make the following announcements:—

(*i*) *Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(*ii*) *An allowance amounting to £150 will be given to any candidate who passes his probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College or King's College); Victoria University, Manchester.*

This allowance will be paid to the selected candidate in four instalments on the following dates respectively:—December 24, after his selection, March 25, June 24, and the date of his signing his covenant on being finally appointed to the service.

With the final instalment an allowance on account of passage to India will be paid to each newly appointed civilian to the amount of £37 10s. 0d., for passage to Calcutta, Madras or Bombay, and £43 for passage to Rangoon, the Officer then making his own arrangements for his passage.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a certificate that the candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorised University or College; the fourth and final instalment will be paid as soon as the selected candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(*iii*) *Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself to refund all monies he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

A Manual of Rules and Regulations applicable to members of the covenanted Civil Service of India has been compiled by permission of the Government of India, and may now be procured from the undermentioned Agents for the sale of Indian Official publications. CIVIL SERVICE OF INDIA; &c., &c.

SYLLABUS of any open Competitive Examination for the Civil Service of India Clerkship (Class I) in the Home Civil Service and Eastern Cadetships in the Colonial Service that may be held in the year 1911, and of any other competition that may be held in combination therewith.

In view of the importance of legible handwriting in the public service, candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

Candidates are warned that full marks cannot be obtained on any paper unless the whole of it is answered, or, in cases where the number of questions to be answered is specified, unless the full number specified is answered.

English Composition.—An Essay to be written on one of several specified subjects.

Sanskrit Language and Literature.—Translation from Sanskrit (Vedic and Classical) into English and from English into Classical Sanskrit; History of Sanskrit Literature (Vedic and Classical), including a knowledge of such Indian History as bears upon the subject; critical questions on the Sanskrit Language (Vedic and Classical).

Candidates are expected to make a special study of the Seventh Mandala of the Rig-veda, but other Vedic hymns may also be set in the examination.

Arabic Language and Literature.—Translation from Arabic into English, and from English into Arabic; original composition in Arabic; History of Arabic Literature, including a knowledge of such Arabian History as bears upon the subject; Arabic Grammar; Arabic Prosody.

Greek Literature.—Critical questions on the Greek Language (including questions on Philology) and Literature.

Latin Literature.—Critical questions on the Latin Language (including questions on Philology) and Literature.

English Language and Literature.—The Examination will be in two parts. In the one the Candidates will be expected to show a general acquaintance with the course of English Literature, as represented (mainly) by the following writers in verse and prose, between the reign of Edward III and the accession of Queen Victoria:—

Verse—Chaucer, Langland, Spenser, Shakespeare, Milton, Dryden, Pope, Gray, Collins, Johnson, Goldsmith, Crabbe, Cowper, Campbell, Wordsworth, Scott, Byron, Coleridge, Shelley, Keats.

Prose—Bacon, Sir Thomas Browne, Milton, Cowley, Bunyan, Dryden, Swift, Defoe, Addison, Johnson, Burke, Scott, Macaulay (Essays and Biographies).

A minute knowledge of the works of these authors will not be looked for in this part of the Examination, which will, however, test how far the Candidates have studied at first-hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature. Candidates will also be expected to show that they have studied in these authors the history of the English Language in respect of its vocabulary, syntax, and prosody.

The other part of the Examination will relate to one of the periods named below, which will follow each other year by year in the order indicated:—

1. For the year 1911: A.D. 1800 to A.D. 1832 [Nineteenth Century writers to the death of Scott].
2. For the year 1912: A.D. 1360 to A.D. 1600 [Chaucer to Spenser].
3. For the year 1913: A.D. 1600 to A.D. 1700 [Shakespeare to Dryden].
4. For the year 1914: A.D. 1700 to A.D. 1800 [Prope to Cowper].

The examination in this part will require from Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names placed beside the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. All the works of Shakespeare, for example, will be regarded as falling within the period 1600 to 1700; all the works of Swift within the period 1700 to 1800; all the works of Scott and Wordsworth, and all the works of Macaulay within the period 1800 to 1832.

The books specified for the year 1911, period 1800 to 1832, are—

Wordsworth. Sonnets
Shelley. Prometheus Unbound; Adonais; Hellas.
Sydney Smith. Works.
Keats. Poems.
Rejected Addresses.
Scott Heart of Midlothian; The Antiquary; Old Mortality.
Jane Austen. Novels.
Byron. Letters.

Italian, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before the time of Dante.

French, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500.

German, History of the Language and Literature.—Passages for translation may be set, and questions asked, demanding a knowledge of the language in its early stages; but it will not be obligatory upon candidates to master in detail the old forms in use before 1500.

Lower Mathematics.—Plane Geometry including conic sections; Solid Geometry including the method of orthogonal projection; Algebra and Plane Trigonometry; Elementary Plane Co-ordinate Geometry; Elementary Mechanics of solids and fluids; Geometrical Optics, Elements of Differential and Integral Calculus with simple illustrations from other branches of the subject. The questions may involve the use of drawing instruments. The use of the slide rule is allowed.

Higher Mathematics.—Higher Algebra (including Theory of Equations), Plane and Spherical Trigonometry, Differential Calculus, Integral Calculus, Differential Equations, Analytical Geometry (Plane and Solid), Statics including Attractions, Dynamics of a Particle, Rigid Dynamics, Hydrodynamics, the Mathematical Theory of Electricity and Magnetism. The questions may involve the use of drawing instruments. The use of the slide rule is allowed.

Chemistry, Physics, Geology, Botany, Zoology, Animal Physiology.—Candidates are warned that the practical Examinations carry a large proportion of the marks.

Geography.—The history of geographical ideas and methods.

The construction and use of the more familiar map-projections. A general knowledge of the methods of exploratory surveying.

The characteristics and cartographical analysis of the physical regions of the world. The configuration of the continents and of the bed of the ocean. The characteristics and distribution of typical land forms. The circulation of air and water. The climatic characteristics of different parts of the earth. The distribution of plant and animal-associations.

The classification and distribution of the races of mankind. Past and present lines of communication. The influence of geographical environment (physical features and other natural conditions) upon the habits, arts, industries, social organisation and, generally, the political and economical development of the more important existing peoples.

Greek History.—Questions (*a*) on the General and (*b*) on the Constitutional History of Greece to the death of Alexander. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

Roman History.—Questions (*a*) on the General and (*b*) on the Constitutional History of Rome to the death of Trajan. Candidates will be expected to show a knowledge of the original authorities. They must also be prepared to answer questions on historical geography, and to draw sketch maps.

English History.—The subject will include (*a*) the Political History of Great Britain, Ireland, and the Colonies, (*b*) the Constitutional History of the United Kingdom. Candidates should be acquainted with the following authorities:—

Period I, to 1485: Stubbs, Select Charters [Clarendon Press].

Period II, 1485 to 1848: Prothero, Statutes and Constitutional Documents [Clarendon Press]; Gardiner, Documents of the Puritan Revolution [Clarendon Press].

In each period the number of marks assigned to the question or questions dealing with the text of the prescribed books will be about one-sixth of that assigned to the whole period. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

General Modern History.—Candidates may, at their choice, be examined in any *one* of the following periods. Periods III, IV, and V will include Indian History. Candidates are warned that high marks will not be awarded in this subject unless the text of the prescribed books has been carefully studied by them. Candidates must be prepared to answer questions on historical geography, and to draw sketch maps.

I. From the accession of Charlemagne to the Third Crusade. [A.D. 800 to A.D. 1193.]

II. From the Third Crusade to the Diet of Worms. [A.D. 1193 to A.D. 1521.]

III. From the Diet of Worms to the death of Louis XIV. [A.D. 1521 to A.D. 1715.]

IV. From the accession of Louis XV to the French Revolution of 1848. [A.D. 1715 to A.D. 1848.]

NOTICE TO TENDERERS.

SEALED TENDERS for the supply of the undermentioned supplies from 1st April 1911 to 31st March 1912 will be received by the Station Supply Officer, Presidency Brigade, up to 12 noon on the 10th November 1910.

II.—Forms of "Tenders" and Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing to the abovenamed officer up to the 4th November 1910.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a Presidency Bank / Treasury Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest-money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. (as noted below), which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with the General Officer Commanding 8th (Lucknow) Division, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Thursday, the 10th November 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of firewood" and addressed to the Station Supply Officer, Presidency Brigade, and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

E. G. VAUGHAN, MAJOR,
Station Supply Officer, Presidency Brigade.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PERSIAN GULF.

Shatt al Arab River—Position of Buoys.

No. 433 (first publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 92M. of 1910), are republished :—

Position.—(1) Black Conical Buoy:—

N. 46° W. about 2·6 miles from the Outer Bar Buoy.

(2) No. I Buoy—

N. 39° W. from Black Conical Buoy.

Remarks.—The whole Channel appears to have shifted to the eastward, and the Directions in the Persian Gulf Pilot are not to be relied upon, as there is very little water to the westward of the Buoys.

The following appears to be the best course for entering the River:—

Pass about 5 cables to the eastward of the Outer Bar Buoy and steer for a point 4 cables to the eastward of the Black Conical Buoy; then alter course to pass about 3 cables to the eastward of No. I Buoy and from there proceed N. 40° W. until Fao Telegraph Station bears N. 69° W.

The discoloured water on the banks affords a guide to the Channel, but is not to be relied on, especially after strong winds.

The above course will give a least depth of 3 fathoms over the Bar.

REPORT ON THE ADMINISTRATION OF THE EXCISE DEPARTMENT IN BENGAL DURING THE YEAR 1909-1910.

NOTIFICATION.

No. 332T.—S.R.—The 4th October 1910.—The following extracts from the Report of the Commissioner of Excise and Salt on the administration of the Excise Department in Bengal during the year 1909-10 and from the letter from the Board of Revenue reviewing the Report are published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

No. 4747B., dated Calcutta, the 24th August 1910.

From SRIGOPAL BHATTACHARJI, ESQ., M.A., B.L., Secretary to the Board of Revenue, L. P., Miscellaneous Revenue Department,

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge:
THE HON'BLE MR. W. C. MACPHERSON, C.S.I., I.C.S.

I AM directed by the Board of Revenue to submit the report of the Commissioner of Excise, Bengal, on the administration of the Excise Department during the year 1909-10.

2. *Administrative changes.*—The most important administrative changes which took place during the year were the extension of the contract system of supplying spirits to the districts of Monghyr, Bhagalpur and Purnea, the enhancement of the duty on foreign liquor, both imported and locally manufactured, the enhancement of the duty on *bhang* in 15 districts, the restriction of supply of opium to shops in Calcutta and the adjoining districts of the 24-Parganas, Howrah and Hooghly, and the imposition of Excise restrictions on eucaine, beta eucaine, beta eucaine lactate and holocaine. Measures were also taken to restrict the home-brewing of *pachwai* and for better regulation of the sale of *pachwai*. The rate of duty on country spirit was raised during the year in four districts or parts of districts. Duty on country spirit has also been raised from the current year in the towns of Cuttack, Balasore. Puri, Monghyr and Jamalpur, and in the urban tracts of the Shahabad district. After many years of discussion the Bengal Excise Bill passed through the Bengal Council in July 1909, and the new law came into force from the 1st December last. Rules and notifications having the force of law under the new Act were published in the same month, and a new Excise Manual has been prepared and is about to issue.

3. *Local Advisory Committees.*—Local Committees were appointed in Calcutta and in 27 municipal towns with a population of 20,000 or more to consider and advise the Collectors with regard to the number and sites of liquor shops to be licensed for the current year. As in the preceding year, the Committees consisted of (1) the Collector as Chairman, (2) the Superintendent of Police, (3) the Chairman of the Municipality, and, in towns where the Collector is the Chairman, the Vice-Chairman of the Municipality, and (4) one Municipal Commissioner nominated, by the Municipal Commissioners of each ward in which liquor shops were to be licensed. The details given in paragraph 20 of the Excise Commissioner's report show that in twenty districts country spirit shops and *tari* shops were abolished or removed to other sites in deference to local opinion. The Commissioner of Tirhut reports that in all the districts of that Division the Collectors endeavoured to meet the wishes of local bodies and of those interested in the work of the Excise Department. In Calcutta a considerable number of country spirit shops was abolished in 1908 and 1909 on the recommendations of the local Committees, and the Calcutta Committee of February last took exception only to one country spirit shop which was abolished and to two *tari* shops of which the sites were changed.

4. *Revenue.*—In round figures, the total receipts of the year, inclusive of advance collections, amounted to Rs. 168 lakhs against Rs. 170 lakhs in the preceding year. The receipts were made up of Rs. 76 lakhs in duty and Rs. 92 lakhs in license fees against Rs. 73 lakhs and 97 lakhs, respectively, in the preceding year. Country spirit, *ganja* and opium account for 51 per cent., 18 per cent. and 15 per cent., respectively, of the total revenue of the year. The receipts from *ganja* show an increase of 1¾ lakhs or 6 per cent., while those from country spirit and opium show a decrease of 3¼ lakhs and 1½ lakhs or 3·8 per cent. and 5·5 per cent., respectively. The incidence of taxation per proof gallon of spirit under the contract and central distillery systems taken together was Rs. 5·6 against Rs. 5·7 in the previous year, and the average fee for each outstill was Rs. 2,048 against Rs. 2,148 in the preceding year.

5. *Result of settlements.*—There was a heavy nett decrease of over Rs. 8 lakhs in the total license fees for which country spirit shops have been settled for the current year. The decrease in Gaya, Patna, Saran, Shahabad, Darbhanga and Muzaffarpur, amounting, in the aggregate, to over 10 lakhs, is due to the abolition of outstills on the introduction of the contract distillery system from the 1st April 1910. The decrease in Monghyr, Bhagalpur and Purnea, aggregating Rs. 95,937, is due to the reduction of upset fees for licenses made in view of the fact that the fees obtained at the settlements for the preceding year were excessive. It is expected that a great part of the decrease in license fees will be balanced by increased receipts from duty during the current year. Compared with 1908-09, however, the year 1909-10 showed an increase of only about 2¼ lakhs in duty receipts as against over

4 lakhs lost in license fees on the introduction of the contract system into the three districts of the Bhagalpur Division just named, and it remains to be seen how far the higher duty receipts will make up the loss from license fees in the districts of the Patna and Tirhut Divisions. Special causes, which have arrested the expansion of receipts from license fees, have been the smaller purchasing power of the consumers owing to poor harvests of recent years and high prices of food grains, and consequent surrenders of licenses by vendors, unpopularity of the new liquor, and the opposition of the old outstill vendors.

6. *Country spirit.*—If the districts of Monghyr, Bhagalpur and Purnea be left out of account because, previous to the year under review, the greater portion of these districts was under the outstill system, the statistics of duty-paid liquor show 935,419 proof gallons consumed in contract and distillery areas against 950,734 gallons in the preceding year. Decrease in consumption was heavy in the districts of the Sonthal Parganas and Manbhum, where there was depression in the coal and lac trades. The Board notice that the number of persons arrested for illicit distillation in these districts rose from 82 and 16 in 1908-09 to 185 and 58, respectively, in the year under report. These figures furnish reason to suspect that in these districts illicit liquor was substituted to a considerable extent for licit liquor. The late Commissioner of Excise, Mr. Geake, was of opinion that the retail prices fixed for country spirit in the Sonthal Parganas were too high and should be reduced. The Board decided not to reduce the prices, but to encourage the sale of weak liquor rather than strong liquor in this district. The Board await the proposal for the introduction in this district of an intermediate strength between 50° U.P. and 70° U.P. The Excise Commissioner is of opinion that the proportion which the license fees bear to duty in the district of Manbhum is still excessive. It was recently reported, however, that although the incidence of license fees was high in the colliery area of this district, it was not desirable to raise the duty any further in that area, until the new system shall have been in force for some time, as the consumers in the colliery area might easily get their drink from shops in the non-colliery area. The consumption in this area should be carefully watched.

In Calcutta there was an increase of 20,000 gallons in the consumption of country spirit during the year under review as compared with 1908 09; but the total was less than that of 1907-08 by 45,000 gallons.

7. *Minimum prices.*—The system of minimum prices for the sale of country spirit, which was introduced last year into certain districts, is reported to have worked well, except in the Sonthal Parganas and Sambalpur, where the prices fixed are stated to have been excessive.

8. *Convictions for drunkenness, and action taken against licensees for permitting it.*—In Hooghly and the 24-Parganas there was a marked increase in the number of convictions for drunkenness; but in the former district the increase followed an equally marked decrease in the preceding year. In Hooghly there was a small increase and in the 24-Parganas a considerable increase of consumption of country spirit during the year. In Calcutta there was a small decrease in the number of convictions for drunkenness accompanied by an increased consumption. The Board agree in the opinion expressed by the Excise Commissioner, by the Collector of Calcutta and by the Commissioner of Burdwan that the figures of convictions for drunkenness depend chiefly on the activity of the police. Except in one case, there was no occasion to take any action against vendors on account of drunkenness on licensed premises.

9. *Prohibition of sale of country spirit on credit.*—The prohibition of the sale of country spirit on credit has not been extended to the country spirit shops in Calcutta, because here there is danger of diverting consumers to cheap foreign spirit if such prohibition be limited only to country spirit.

10. *Country rum.*—The consumption of Shahjahanpur rum shows a downward tendency, while that of rum manufactured at the Konnagore distillery in the Hooghly district shows a steady increase. The whole quantity of Madras rum (6,701 gallons) shown as consumed was issued duty-free for Government purposes.

11. *Imported liquors.*—The trade in cheap imported liquors has increased. Under the new Excise Act, the system of compounding and bottling of foreign liquor has been brought under effective excise control, and a minimum strength of 25° U. P. has been fixed for sale of whisky, brandy and rum and of 35° U. P. in the case of gin. Arrangements have been sanctioned by Government to enable respectable chemists, doing wholesale business in the manufacture of drugs, medicines and chemicals, to obtain, from a distillery or Excise warehouse, rectified spirit intended for use in the manufacture of such articles, on payment of duty at the reduced rate of Rs. 7-13 per gallon L. P.

12. *Denatured spirit.*—The quantity of Java spirit denatured in Calcutta increased during the year by 71,228 gallons owing chiefly to the larger demand for shellac manufacture. Revised rules are under preparation for denaturation of spirit with the general denaturant recently prescribed by the Government of India.

13. *Tari.*—In accordance with the suggestions of the Indian Excise Committee, made in paragraph 221 of their report, a considerable reduction in the number of *tari* shops has been effected in the Behar districts since 1905-06, and this has led, by increased competition, to a substantial increase of revenue in all these districts, except Bhagalpur, where there has been a decrease of Rs. 6,046. In this district a reduction of 105 shops was made during the year, of which 73 were situated in the town of Bhagalpur. The system of remitting *tari* fees by money orders is working successfully in the Behar districts.

14. *Pachwai.*—The reduction of the number of *pachwai* shops, recommended by the Indian Excise Committee, was kept in view, and 50 such shops (viz., 34 in Burdwan, 7 in Birbhum and 9 in Bankura) were abolished during the year; in Birbhum 47 shops had been abolished in the preceding two years. Under orders recently received from Government, the concession granted to Sonthals and other aborigines in the districts of the 24-Parganas, Nadia and Jessore to brew *pachwai* under license for home consumption will be withdrawn from next year.

* * * * * *

15. *Ganja.*—There was a general increase in the consumption of *ganja* which is attributed to the reduction in retail price consequent upon the lower wholesale price charged at Naugaon. The large increase in Calcutta (50 maunds) and the 24-Parganas (40 maunds) is attributed to a larger influx of up-country labourers. The incidence of license fee per seer of *ganja* in Calcutta is the lowest in the province, excepting three districts, and it may be desirable that there should be a reasonable increase of upset fees for licenses. Government has decided that Rajshahi *ganja* should be exclusively supplied for consumption in the district of Sambalpur, and the duty has at the same time been raised from Rs. 5 to Rs. 7 per seer. The Government of Madras have recently issued orders prohibiting the cultivation of the hemp plant in the agency tracts in Ganjam which border on Orissa. The effect of this measure on smuggling into Orissa remains to be seen.

To check the unlicensed possession and sale of *ganja*, the Board have lately approved the Excise Commissioner's proposal to reduce the limit of retail sale and possession of the drug from 20 to 5 tolas. The lower limit, which has long been in force in other Provinces, will take effect in Bengal from the 1st April next.

16. *Siddhi or Bhang.*—The consumption of *bhang* in the Province showed a falling off of 289 maunds, the decrease in Calcutta alone being 128 maunds. The decrease is attributed mainly to the enhancement of the duty on *bhang* made from last year; but it is also reported that the stock of *bhang* ran short during the year and that in consequence the wholesale price of *bhang* was as high as that of *ganja* in some districts. Measures have been taken to check establishment of monopoly prices in this article.

17. *Opium.*—The total consumption of opium during the year showed a decrease of 197½ maunds in the Province. The decrease of 278 maunds in Calcutta and of 39 maunds in the 24-Parganas was the result of restricting supplies of opium, which was devised with a view to checking smuggling into Burma. Mr. Baboneau, Collector of Calcutta, reports that the activity of the smugglers has not been checked and that they are now obtaining their supplies from more distant districts. The Preventive establishments under the Collector of Calcutta, and the Collector of Customs, detected many important cases of smuggling during the year. The abnormal increase (58 maunds 36 seers) in the issues from the Patna treasury called for restriction of supplies to the Patna shops which was made towards the end of the year. A small decrease of consumption in the Orissa districts in 1908-09 was followed by an increase in the year under review.

* * * * * *

18. *Cocaine.*—The illicit traffic in this drug has again increased. The Superintendent of Excise Revenue, Calcutta, states that supplies of the drug are now chiefly obtained through the agency of employés on board the vessels which trade between Calcutta and Europe. This evil can best be checked by special watchfulness on the part of the Customs Preventive officers, who should be reminded that liberal rewards will be given for detection of such offences.

19. *Excise offences.*—A very striking increase is to be observed in the number of convictions for illicit distillation which rose during the year from 299 to 690. Convictions were most numerous in the Sonthal Parganas, Midnapore and the 24-Parganas. Cheap *mahua* and rice cheaper than in recent years offered an incentive to illicit distillation. There was also greater activity on the part of the Preventive staff. It is reported, however, that in Burdwan a large number of offences under this head probably went undetected owing to combination among the villagers and the connivance of landholders, and that in the Sonthal Parganas the village headmen, who also exercise police functions, were in many cases either implicated in, or were the actual perpetrators of, the offences.

Total Revenue and charges

5. The Excise revenue and charges of the province for the last five years are shown below :—

Period.	Revenue.	Charges.	Net revenue.	Percentage of charges.
	Rs.	Rs.	Rs.	
1905-06 ...	1,53,18,436	6,90,480	1,46,27,956	4·50
1906-07 ...	1,60,79,779	7,35,356	1,53,44,423	4·57
1907-08 ...	1,70,78,073	7,76,514	1,63,01,559	4·54
1908-09 ...	1,70,00,787	7,97,679	1,62,03,108	4·69
1909-10 ...	1,67,93,419	8,75,086	1,59,18,333	5·21
Difference of the past two years	—2,07,368	+77,407	—2,84,775	+·52

The net revenue shows a decrease of Rs. 2,84,775, or 1·7 per cent., as compared with that of 1908-09.

* * * * * *

10. The largest increase of revenue, Rs. 1,68,895, occurred under the head *ganja*. *Pachwai* came next with an increase of Rs. 88,868, followed by imported liquors, *tari* and beer, which yielded increases of Rs. 25,929, Rs. 20,719 and Rs 5,345, respectively. The decrease was largest under country spirit (Rs. 3,39,925), opium (Rs. 1,48,533) and rum (Rs. 28,290). The fluctuations in the revenue from different excisable articles will be discussed in detail under the several heads.

Revenue under different heads.

11. * * * * Taking the population of Bengal according to the last census at 51 millions, and adding seven per thousand per annum, as representing the average annual growth of population, the incidence of the excise revenue is 4 annas and 11 pies per head. * * * *

SECTION II.—COUNTRY SPIRIT.

13. The manufacture and sale of country spirit were carried on under three systems, viz, the Contract Supply system, the Central Distillery system and the Outstill system. The Central Distillery system was confined to Calcutta and the Sadar subdivision of the 24-Parganas. Except that no maximum prices for retail vend were prescribed in these areas, the system was practically the same as the Contract Supply system.

Systems.

14. The total consumption of Contract and Distillery spirits was 1,095,089 gallons L. P. as compared with 996,519 gallons L. P. in 1908-09, shewing an increase of 98,570 gallons L. P. This increase is nominal, being more than accounted for by the conversion of outstills into distillery shops in the districts of Monghyr, Bhagalpur and Purnea. Taking individual districts, the largest increase occurred in Calcutta (20,217 gallons L. P.), the 24-Parganas (10,478 gallons L. P.), Gaya (5,863 gallons L. P.), Ranchi (2,175 gallons L. P.), Champaran (1,431 gallons L. P.) and Hooghly (1,128 gallons L. P.). In these districts the larger consumption has been attributed mainly to the more prosperous condition of the consumers. In Ranchi the Contract Distillery system was introduced in June 1908, and the figures for 1908-09, therefore, represent consumption for ten months only. The decrease was considerable in the Sonthal Parganas (21,557 gallons L. P.), Manbhum (16,018 gallons L. P.), Darjeeling (5,691 gallons L. P.), Bankura (3,582 gallons L. P.), Muzaffarpur (2,987 gallons L. P.), Patna (2,760 gallons L. P.), Shahabad (1,982 gallons L. P.) and Sambalpur (1,507 gallons L P.). In the Sonthal Parganas high retail prices, prohibition of sale of liquor on credit and an indifferent lac trade were the causes of decreased consumption. The decrease in Manbhum was due to the depression in the coal and lac trades. In Darjeeling it is ascribed to the high prices of food-grains and the suspension of great part of the work of the Public Works Department, which affected the influx of labourers. In Bankura there was a marked falling off in the consumption of 70° U P. liquor which is chiefly drunk in the Sonthal and semi-aboriginal area. The quantity issued was 36,177 gallons as compared with 47,737 gallons in 1908-09. The decrease was due partly to illicit practices, and partly to the more extensive use of *pachwai* on account of the cheapness of rice. Forty-nine persons were convicted of illicit distillation against 18 in 1908-09. The decrease in Muzaffarpur, Patna and Shahabad was due to scarcity and high retail prices. In Sambalpur the decrease was due to the imposition, with a view to checking consumption, of a higher rate of duty. In the Asansol subdivision of the Burdwan district there was a fall in consumption amounting to 1,735 gallons. The decrease was confined to town shops where minimum prices were fixed, and was due to the falling off in the coal trade. It is alleged that the miners, who form the bulk of the consumers, had not the means to indulge in licit liquor, and resorted, therefore, to illicit

Consumption of Contract and Distillery spirits.

practices. Nine cases of illicit distillation were detected in this subdivision, while there were no such cases in 1908-09. A temperance movement among the lower classes of people in the districts of the Tirhut Division caused a diminution in the sale of country spirit, while apparently encouraging the use of *ganja* and opium.

Revenue under the Contract Supply and Distillery systems.

15. The total revenue under the Contract and Distillery systems was Rs. 61,85,532 against Rs. 56,95,309 in 1908-09. The increase was marked in Calcutta (Rs. 1,55,369), Purnea (Rs. 1,34,158), Monghyr (Rs. 1,15,611), the 24-Parganas (Rs. 69,822), Bhagalpur (Rs. 58,194), Ranchi (Rs. 24,956), Shahabad (Rs. 20,893), Gaya (Rs. 18,534), Patna (Rs. 13,687), Burdwan (Rs. 12,198) and Midnapore (Rs. 10,857). The increase in Monghyr, Bhagalpur and Purnea is nominal, as explained in the preceding paragraph. In Patna, Gaya and Shahabad the increase was also nominal, and was chiefly due to larger collection of advance-fees for shops settled under the Contract Supply system for the current year, in place of advance-fees for the outstills which these shops replaced. The increase in Calcutta and the 24-Parganas was due to better settlement of shops as well as to larger consumption. In Midnapore the increase was chiefly in license-fees, due to more favourable settlements. On the other hand, there was a heavy fall in the Sonthal Parganas (Rs. 67,835), Manbhum (Rs. 64,388) and Saran (Rs. 11,305). The decrease in the Sonthal Parganas is accounted for by the smaller consumption. Of the decrease of Rs. 64,388 in Manbhum, Rs. 33,062 were on account of license-fees, and Rs. 31,326 on account of duty. The decrease in license-fees was due to the settlement of licenses at lower fees than in 1908-09. The proportion which the license-fees bear to duty is still excessive.

Outstill revenue.

16. The outstill revenue was Rs. 24,69,677 against Rs. 32,90,225. The decrease was large in Monghyr (Rs. 2,08,362), Purnea (Rs 2,01,590), Patna (Rs. 1,51,346), Bhagalpur (Rs. 99,419), Shahabad (Rs. 60,443), Gaya (Rs. 55,332), Darbhanga (Rs. 42,394), Saran (Rs. 39.115), Muzaffarpur (Rs. 32,701) and Ranchi (Rs. 12,407). In Monghyr, Bhagalpur and Purnea the decrease under outstill revenue is due to the abolition of all outstills on the introduction of the Contract Distillery system with effect from the 1st April 1909. The decrease in Patna, Gaya, Shahabad, Saran, Muzaffarpur and Darbhanga was due to the settlement of outstills at reduced fees on account of the loss suffered by the vendors in 1908-09 owing to the high prices of food-grains, and to the non-collection of advance-fees under this head owing to the introduction of the Contract Distillery system with effect from the 1st April 1910. In Ranchi reduced fees were offered for outstills on account of the heavy losses sustained by the vendors in 1908-09. The large increase of Rs. 47,168 in Champaran was due to the settlement of outstills at increased fees in the Bettiah subdivision, owing to the improved agricultural conditions and the influx of labourers for railway and canal works.

Total number of licenses.

17. The number of licenses for the sale of country spirit (contract, distillery and outstill liquor) fell from 2,997 to 2,942, or by 55. In Sambalpur a gradual reduction is being made in the number of outstills, twenty-five being abolished during the year. In Calcutta 16 country spirit shops were abolished during the last two years in accordance with the recommendation of the Local Excise Committee which sat in 1907. In Gaya eight and in Hazaribagh six outstills were closed, and eight shops were abolished in Manbhum. There was an increase of 15 licenses in the Angul district owing to the settlement of certain outstills in the subdivision of Khondmals which had remained unlet in 1908-09.

Total country spirit revenue.

18. The total revenue from country spirit was Rs. 86,45,609 as compared with Rs. 89,85,534 in 1908-09. The causes of the decrease have already been stated.

Working of the Contract Distillery system in Monghyr, Bhagalpur and Purnea.

19. The contract for the supply of country spirit to the district of Purnea and those portions of the districts of Monghyr and Bhagalpur which are situated to the north of the Ganges was given to the Managing Agents, Cawnpore Sugar Works, Limited, at the rate of As. 12-6 per gallon L. P., and that

for the rest of the area to a native distiller, Babu Thakur Das, at As 15 per gallon L. P. The Cawnpore Sugar Works erected a new distillery in connexion with the Marhourah Sugar Factory in the Saran district; and the native distiller, Babu Thakur Das, besides working the Government distilleries at Monghyr and Bhagalpur, opened a new distillery at Mankatha in the Monghyr district. For the distribution of liquor, seven warehouses were opened in Monghyr district, six in Bhagalpur and six in Purnea. Duty was fixed at Rs. 2 per gallon L. P, and the sale strengths and maximum prices were originally fixed as follows :—

Sale strengths.	Maximum price per bottle. As.	P.
30 U. P.	14	0
50 U. P.	8	0
60 U. P.	4	6
80 U. P.	2	0

The total loss in revenue from country spirit in these three districts amounted to no less than Rs. 2,06,208. Several causes seem to have combined in bringing about this result. The year was one of high prices, and the new system came into force at a time when the purchasing power of the consumers had been lowered by a succession of poor harvests. The license-fees had been fixed at too high a rate during the settlements made in February and March 1909. The vendors were unable to pay the heavy fees, and consequently there were numerous cases of surrender and closure of shops soon after the year began. The dislike of consumers accustomed to outstill liquor to the new liquor blended at warehouses was also responsible for decrease in the consumption of licit spirit, and probably encouraged illicit practices; and in the first unpopularity of the new liquor, the opposition of the old outstill vendors to the new system also had some effect.

Considerable reduction in the original license-fees was made in Monghyr with effect from the 1st September 1909, and in Bhagalpur and Purnea from the 1st October 1909. Simultaneously the maximum price of 60° U. P. liquor was reduced from 4 annas 6 pies to 4 annas per bottle. Steps were also taken to ensure that the spirit issued by the distillers had more flavour of *mahua*, the absence of such flavour being objected to by the consumers.

Local Excise Committee.

20. In accordance with the instructions contained in paragraph 70 of the Government Notification No. 716 S.R., dated the 25th November 1909, local committees were formed in towns, having a population of 20,000 or more, to consider and advise the Collector on the proposals regarding the licensing, number and situation of liquor shops (country spirit, imported spirit, *pachwai* and *tari*) for the year 1910-11.

* * * * * *

The notices required by section 31 of the Excise Act (V of 1909) were published, and every opportunity was given to the public of expressing their opinion.

In accordance with the recommendation of the committees, or in deference to local opinion, the following action was taken :—

Burdwan.—Certain objections in respect of two liquor shops were met by the local authorities.

Birbhum.—The site of a shop was changed in view of local complaint.

Midnapore.—A proposed new country spirit shop and a proposed *pachwai* shop were not licensed in deference to local opinion.

Howrah.—The site of a country spirit shop was changed at the request of the mill authorities.

24-Parganas.—A country spirit shop was removed at the request of the Officer Commanding, Barrackpore.

Khulna.—The site of a country spirit shop was changed in consultation with the Chairman of the Municipality.

Patna.—Seven *tari* shops were abolished. A new site has been selected for a country spirit shop, the old site being objected to by the police.

Gaya.—One outstill shop was removed to another site on the ground of its being too close to the local bazar; and the sites of several *tari* shops, which were on enquiry found to be really objectionable, were changed.

Saran.—In Chapra the site of a country spirit shop was changed on account of its proximity to the railway station and a temple. Two *tari* shops, which were considered to be a source of annoyance to the people of the locality, were abolished.

Champaran.—In Bettiah two *tari* shops were abolished and one was removed to an unobjectionable site.

Muzaffarpur.—Two *tari* shops in the town of Muzaffarpur and an outstill in Hajipur were removed to unobjectionable sites. Seven *tari* shops in Hajipur were closed.

Darbhanga.—In Darbhanga town four *tari* shops and in Madhubani six such shops were removed in deference to objections raised.

Monghyr.—One country spirit shop in the town of Monghyr was abolished, and the site of a *tari* shop at Jamalpur was changed. In the rural area, one country spirit shop was abolished at the request of the Dharhara Stone and Slate Manufacturing Company, and a *tari* shop objected to by the Peninsular Tobacco Company was also abolished.

Bhagalpur.—The sites of one country spirit shop and three *tari* shops were changed.

Sonthal Parganas.—The positions of nine shops were altered in view of objections.

Cuttack.—One country spirit shop, which was considered to be in excess of the requirements of the town of Cuttack, was removed.

Sambalpur.—Four outstill shops, of which one was in close proximity to a school and three on roads leading to bathing ghâts, were removed to approved sites.

Hazaribagh.—Eight outstills, which were near bazars or public roads, were removed to distant sites. Several shops within municipal areas were also removed.

Ranchi—Twenty-two outstills and three distillery shops (including two in the town of Ranchi) were removed during the year from the road-side or from the neighbourhood of market places; and at the settlements for the current year new and unobtrusive sites were notified for 16 more outstills and one distillery shop.

Manbhum.—The site of one shop in the town of Purulia was changed, and new sites were selected for several shops in consultation with the railway authorities and the local residents.

* * * * * *

As a result of the deliberations of the Calcutta Excise Committee, one country spirit shop was abolished and a new one established. The sites of two *tari* shops which were found to be objectionable were also changed.

Rates of duty.

22. The rate of duty in the Asansol rural area was raised from Rs. 3-2 to Rs. 3-12 per L. P. gallon, and in Birbhum from Rs. 2-8 to Rs. 3, with effect from the 1st April 1909, to check comsumption. The duty on liquor issued from the Chirkunda country spirit shop in Manbhum was raised from Rs. 2-8 to Rs. 3-12 per gallon L. P. on account of its proximity to the Asansol subdivision. The duty on spirit of 20° U. P. and 50° U. P. in the contract area of the Giridih subdivision of Hazaribagh was raised from Rs. 2-8 to Rs. 3 per gallon L. P., with a view to encouraging the consumption of weak liquor (70° U. P.), on which the duty of Rs. 2-8 was retained.

* * * * * *

Extension of Contract system.

27. The Contract Distillery system has been introduced with effect from the 1st April 1910 into the districts of Patna, Gaya, Shahabad (except the Rhotas plateau and a small tract adjoining it), Saran, the distillery area of the Bettiah subdivision in Champaran, Muzaffarpur (except the Sitamarhi subdivision) and Darbhanga.

SECTION III—COUNTRY RUM.

* * * * * *

29. The following statement shows the quantity of country rum cleared on payment of duty from the Calcutta Excise godown, and the receipts from duty during the years 1908-09 and 1909-10 :—

Consumption and duty.

Year.	Consumption.				Duty.			
	Shahjehanpur Rum.	Madras Rum.	Konnagar Rum.	Total.	Shahjehanpur Rum.	Madras Rum.	Konnagar Rum.	Total.
	L. P. gallons.	L. P. gallons.	L. P. gallons.	L. P. gallons.	Rs.	Rs.	Rs.	Rs.
1908-09 ...	17,976	9,681	4,284	31,941	1,18,832	12,257	29,989	1,61,078
1909-10 ...	15,548	6,701	5,229	27,478	1,08,549	..	37,439	1,45,988

* * * * * *

30. Country rum was consumed in the districts of the Burdwan and Presidency Divisions and in Sambalpur and Manbhum. The consumption was small except in Burdwan (715 gallons L. P.), and Midnapore (845 gallons L. P.). In the 24-Parganas, the consumption is shown in the district report to have been 4,036 gallons L. P., but as Jamaica rum is included, the real consumption of country rum cannot be stated.

Consumption of country rum in mufassal districts.

* * * * * *

32. The duty on country rum has been raised from Rs. 7 to Rs. 9-6 with effect from the 25th February 1910.

Enhancement of duty.

SECTION IV.—IMPORTED LIQUOR.

33. The total number of licenses issued for the sale of imported liquor was 591 against 589 in the previous year. The increase of 41 in the number of wholesale licenses in Calcutta represents the number of blending and bottling licenses granted under the new Act.

Licenses.

34. The total receipts derived from license fees alone amounted to Rs. 3,20,060 against Rs. 2,94,058 in 1908-09, showing an increase of Rs. 26,002. The increase was largest in Calcutta (Rs. 16,180) where it was due to the issue of new blending and bottling licenses and to the conversion of three rum shops into "on" and "off" licenses for the sale of foreign liquor.

Revenue.

* * * * * *

37. The duty on all imported fermented liquors, spirits, wines, etc., was enhanced with effect from the 25th February 1910.

Enhancement of duty.

* * * * * *

SECTION VI.—*TARI.*

41. The total number of licenses issued for the sale of fermented and fresh *tari* was 10,755 against 11,619, and the total receipts were Rs. 12,60,095 against Rs. 12,39,376 in the previous year. There was thus a decrease of 864 licenses, but an increase of Rs. 20,719 in revenue.

Statistics.

42. The number of licenses for fermented *tari* decreased from 11,422 to 10,586. * * * *

Fermented *tari*.

* * * * * *

The receipts from fermented *tari* amounted to Rs. 12,56,721 against Rs. 12,36,304 in the previous year. The increase was considerable in Monghyr (Rs. 9,669), Gaya (Rs. 7,886), Shahabad (Rs. 6,653) and Saran (Rs. 5,181), where it is reported to have been due to favourable settlements. In Monghyr increased fees were offered for *tari* licenses on account of the abolition of outstills. On the other hand, there was a marked decrease in Bhagalpur (Rs. 8,128), mainly due to the settlement of shops at reduced fees owing to agricultural and ecomonic depression in the district.

Fresh *tari*.

43. Licenses for the sale of fresh *tari* were taken out in 13 districts. The total number of licenses issued fell from 197 to 169, and the revenue from Rs. 941 to Rs. 827.

Season *tari* licenses.

44. One thousand four hundred and five season *tari* licenses were issued. These licenses are taken out, chiefly in the 24-Parganas and the Sonthal Parganas, for possession of *tari* for home-consumption, without limit of quantity, at fixed fees of Rs. 3 and 8 annas per license, respectively.

* * * * * *

Alcoholic strength of *tari*.

46. The alcoholic strength and acidity of fresh *tari* and fermented tari in Bengal and Eastern Bengal and Assam were the subject of investigation by the Director of the Central Excise Laboratory during the year. From the report received it appears that the general average alcoholic strength of fresh *tari* (at foot of tree) is about 3·4 per cent. volume (= 94·0 U.P.) and of fermented *tari* (shop samples) 3·9 per cent. volume (= 93·2 U. P.). The results disclose how little justification there would have been for exempting the so-called unfermented *tari* from the provisions of the law.

SECTION VII.—PACHWAI.

Statistics.

47. There was an increase in the total number of licenses issued from 10,712 to 11,304, and in the receipts from Rs. 6,08,408 to Rs. 6,97,276.

Licenses for retail sale and revenue.

48. The number of retail licenses decreased from 1,713 to 1,655. The decrease was mainly due to the reduction made in the number of *pachwai* shops in the Burdwan, Birbhum and Bankura districts, in which the Indian Excise Committee considered the number of shops to be excessive. Fifty shops, viz., 34 in Burdwan, 7 in Birbhum and 9 in Bankura were abolished as unnecessary.

The revenue increased from Rs. 5,85,506 to Rs. 6,74,622. The most noticeable increase took place in Burdwan (Rs. 58,613) and was due to the settlement of shops at enhanced fees on account of the improvement in the agricultural outlook. The demand for *pachwai* is said, moreover, to have increased in this district owing to the general depression in the coal trade, the miners not having the means of indulging in country spirit as freely as they used to.

* * * * * *

SECTION IX—GANJA.

Retail licenses.

56. The number of licenses issued for the retail sale of ganja was 2,051 against 2,045 in the previous year. In 8 districts 17 new shops were opened to meet ascertained local demand and to check illicit practices. Eight shops which appeared unnecessary were closed, and three remained unsettled. The license-fees realized were Rs. 12,83,314 against Rs. 12,49,972 in the preceding year, showing an increase of Rs. 33,342.

* * * * * *

SECTION X.—SIDDHI OR BHANG.

Collection of *bhang*.

63. *Bhang* grows wild in many parts of Bengal, but it is collected for vend only in Monghyr, Bhagalpur and Purnea by wholesale vendors under Government supervision. The total quantity collected was 1,666 maunds against 1,078 maunds in the previous year.

* * * * * *

Consumption.

65. The consumption of *bhang* within the Province was 1,061 maunds against 1,350 maunds in 1908-09. Two maunds nine seers of *bhang* were issued to the Native States of Kharsawan, Seraikhela and Gangpur from Manbhum and Singhbhum, on payment of duty. Twelve seers of *bhang* were also exported to the Feudatory States of Nayagarh and Keonjhar from Cuttack without payment of duty.

* * * * * *

Revenue.

66. Although there was a fall in consumption, the receipts from duty increased from Rs. 34,499 to Rs. 36,065 owing to the enhancements of duty. In Calcutta, where license fees are levied at the rate of Re. 1-4 on every seer of *bhang* issued to the retail vendors, there was a large fall in license fees (Rs. 5,853) owing to decreased consumption. The total receipts from license fees and duty amounted to Rs. 1,05,800 against Rs. 1,07,512 in the previous year.

* * * * * *

SECTION XI.—CHARAS.

Licenses.

69. The number of licenses issued was 51 against 56 in the previous year.

* * * * * *

Imports.

70. The total quantity of *charas* imported during the year was 40 maunds 21 seers against 43 maunds 27 seers in the previous year. The drug was imported direct from the Punjab into Calcutta, the 24-Parganas and Birbhum, whence other districts obtained their supplies.

Consumption.

71. The use of *charas* is limited and is practically confined to the districts of the Burdwan and Presidency Divisions. Of the 33 maunds 31 seers imported into Calcutta, 22 maunds 19 seers were consumed locally, and 11 maunds 12 seers were transported to other districts, the corresponding figures in the previous year being 19 maunds and 13 maunds, respectively. The increase in consumption in Calcutta is said to have been due to the better condition of the labouring classes who are the principal consumers as well as to the larger number of labourers employed during the year. The drug is mostly consumed by up-country men residing in Calcutta and the neighbouring districts, and no serious inconvenience would be caused if the supply were stopped. Habitual consumers would readily take to *gania*, which is a less pernicious drug.

Revenue.

72. The receipts from license fees and duty amounted to Rs. 46,664, showing a decrease of Rs. 318 as compared with the previous year. * * * *

* * * * * *

SECTION XIII.—OPIUM.

Licenses for retail sale.

74. The total number of licenses issued for the retail vend of opium was 1,358 against 1,355 in 1908-09. In six districts 15 new licenses were sanctioned to meet ascertained local demand and check illicit practices, while in six others 12 shops were closed

as unnecessary. In Balasore, where the consumption of opium is abnormally large, six shops were abolished with a view to curtailing what appeared to be excessive facilities for obtaining the drug, and thereby checking consumption. With the same object all shops have been removed from sites where markets are held.

* * * * * *

77. The revenue from license fees rose from Rs. 6,57,895 to Rs. 6,67,160. The increase was largest in Midnapore (Rs. 10,113), where it was due to favourable settlements. In Balasore there was a decrease of Rs. 5,209, due to the measures referred to in paragraph 74 above.

License fees.

78. The total quantity of opium consumed within the Province was 2,135 maunds 17 seers, as compared with 2,332 maunds 36 seers, in the previous year, showing a decrease of 197 maunds 19 seers. The decrease was largest in Calcutta (278 maunds 2 seers), where it was due to the introduction of the restrictive system devised to check smuggling into Burma. The limit of supply for each shop was calculated with regard to the average consumption during three normal years, excluding the years 1907-08 and 1908-09, if there had been any abnormal increase in sales from the particular shop during those two years, and allowing for the growth of population an increase of supply ordinarily amounting to 5 per cent., and in no case exceeding 10 per cent., on the average sales of three normal years. The Superintendent of Excise Revenue, Calcutta, Mr. Baboneau, makes the following remarks in this connexion :—

Consumption and duty.

"It is to be hoped that the Burma Administration has benefited in a way as to compensate for the loss of revenue sustained in Calcutta. The result of the year's detections does not, however, seem to hold out much hope of the evil being brought under efficient control in the near future. Forty-five opium cases were detected during the year in which 7 maunds 4 seers 10 chittaks and 1½ tolas of the drug was seized. The whole of the quantity was Treasury opium. But the circumstances of the cases show that smuggling operations have not received any appreciable check. The scene of operations has merely been changed, and instead of being confined principally to Calcutta as formerly has now spread all over the country, including the United Provinces and the Punjab. The rapidity with which the scene of operations was shifted is remarkable. One of the principal smugglers, I have reason to believe, made a prolonged tour for the express purpose of arranging for his supplies, though it was said locally that he had gone to his home in Peshawar and to visit his relations in the Punjab. One great drawback to this change has been a great loss of revenue without any compensating advantages though no one of course wishes to add to the revenue by facilitating smuggling operations The fact remains that smuggling operations have not been checked. The decrease of revenue in Calcutta has been Rs. 2,25,298, but the actual loss comes about in this wise that whilst the smugglers paid Rs. 29 a seer for the opium in Calcutta, they are now obtaining it from places where the rates are much lower. Against this, on the other hand, must be set the extra trouble, expense and risk imposed on the smugglers."

* * * * * *

The receipts from duty fell from Rs. 20,61,649 to Rs. 19,03,851, or by Rs. 1,57,798.

79. The total receipts amounted to Rs. 25,71,011 against Rs. 27,19,544, showing a decrease of Rs. 1,48,533. There was an increase of Rs. 9,265 in license fees, but a decrease of Rs. 1,57,798 in duty.

Total receipts.

80. The habit of opium smoking, though still widely prevalent, does not appear to have increased except in Midnapore, Calcutta, Murshidabad, Patna, Bhagalpur and Cuttack. In Midnapore the habit is reported to prevail largely at, and in the vicinity of, a village called Kasiari. As almost all the inhabitants are addicted to the habit, it is said to be difficult to obtain informers or witnesses. This is not a satisfactory state of affairs, and the local officers will be requested to spare no effort to eradicate the evil. In Calcutta the smoking dens continue to flourish. The den-keepers are now thoroughly practised in methods of evading the provisions of the rules. This question has been fully dealt with in my letter to the Board No. 27E., dated the 1st June 1910. In Murshidabad, 9 *madak* and *chandu* cases were detected, against one in the previous

Madak and Chandu.

year. *Madak* and *chandu* are also largely consumed in the towns of Bankipore, Patna, Dinapore and Bihar in Patna. It is reported from Bhagalpur and Cuttack that the abolition of licenses for the manufacture and sale of these two preparations has not been successful.

* * * * * *

SECTION XIV.—COCAINE.

86. Licenses for the sale of cocaine are granted only to approved chemists and druggists, a nominal fee of one rupee being charged for each license. The total number of licenses issued during the year was 272 against 260 in the previous year.

Licenses.

87. From the reports of the local officers the cocaine habit appears to be prevalent to any considerable extent only in Calcutta, Burdwan, Patna, Gaya, Monghyr, Bhagalpur and the Sonthal Parganas. The number of persons convicted of illicit sale and possession of cocaine was 296, viz., 258 in Calcutta, 21 in Bhagalpur, 5 in Patna, 5 in Monghyr, 4 in the 24-Parganas and 1 in each of the districts of Purnea, the Sonthal Parganas and Manbhum. In Calcutta the quantity of cocaine seized was 452 oz., against 72½ oz. in the previous year. Of this quantity 343 oz. were in their original phials and found pure, the remainder was in retail packets, more or less adulterated and was destroyed as unfit for medical use. In regard to the large number of cases detected and the quantity of cocaine seized, the Superintendent of Excise Revenue, Calcutta, Mr. Baboneau, makes the following remarks:—

Abuses.

"If the number of cases detected and the quantity of the illicit drug seized are any index to the volume of the illicit trade, I am afraid the above figures must be interpreted as a great expansion in the illicit trade and consumption of the drug. Some allowance may be made for zeal and success of detective officers, but that alone cannot be taken as a sufficient explanation for the enormous increase shown by the above figures. The only conclusion I can come to is that those desirous of obtaining the drug have now devised and developed other means for obtaining their supplies. Chief amongst these are the employés on board the vessels that trade between Calcutta and Europe. It is an unfortunate circumstance, greatly to be regretted, that certain Europeans have been found to be engaged in this nefarious traffic which cannot be too strongly condemned".

The successful detection of so many cases, some of which were of special importance, is creditable to the Calcutta staff. It is clear, however, that if this pernicious traffic is to be stamped out, the utmost vigilance must continue to be shown, and deterrent sentences imposed on conviction.

In Bhagalpur several important seizures were made. An old offender was sent up for illicit possession and sale of two phials of cocaine, and was on conviction sentenced to three months' rigorous imprisonment.

* * * * * *

SECTION XV.—OFFENCES AGAINST THE EXCISE AND OPIUM LAWS.

90. The year was marked by a large increase in the number of offences as well as by much greater activity in the detection and prosecution of offenders, the total number of arrests rising from 2,885 to 4,200. The increase was largest in Calcutta (183), Midnapore (143), the 24-Parganas (140) and the Sonthal Parganas (107). In Calcutta the large number of cocaine cases detected raised the figures, while elsewhere the increases occurred chiefly under illicit distillation and manufacture and smuggling of *ganja* and liquor. The result is only what was to be expected at first from the general introduction of the Contract Distillery system.

Arrests and convictions.

Work of Excise and other officers.

91. The number of persons arrested by Excise officers increased from 2,133 to 3,092, and those by other officers from 752 to 1,108. Excise officers obtained convictions in 89·5 per cent. and other officers in 85·5 per cent. of the cases sent up by them. The Excise staff was most successful in Burdwan, Bankura, Midnapore, the 24-Parganas, Calcutta, the Sonthal Parganas, Balasore, Angul, Sambalpur and Manbhum. The Police are reported to have done good work in Bankura, Patna, Hazaribagh and Singhbhum. In the 24-Parganas, Salt officers succeeded in detecting a number of cases of illicit distillation. In Calcutta the Police and Customs officers sent up a large number of Opium cases. In Patna and Cuttack the dafadars and chaukidars and in Angul the chaukidars and *mutha maliks* helped the Police and Excise officers in the detection of cases.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE WINTER RICE CROP OF BENGAL 1910..

(On an average of five years ending 1908-09, the area under winter rice in the territory to which the forecast relates represents about 27·1 per cent. of the total area under winter rice in British India.

Character of the season.—The rainfall in April and May though defective was sufficient for the preparation of seed-beds and for ploughing. The monsoon set in during the first week of June, but it was not vigorous throughout the Province. In June the rainfall was defective in Bengal Proper, but it was generally above the average in the rest of the Province. In July it was excessive in South-West Bengal, Orissa and North Bihar, and deficient elsewhere. In August there was good rain in South Bihar and in Birbhum, Howrah, Nadia, Murshidabad, Saran, Sambalpur, Angul and Hazaribagh, but the fall was below the normal in the rest of the Province. The deficient rainfall in the early part of the season delayed transplantation in Bankura, Hooghly, Howrah, Patna, Gaya, Shahabad, Palamau, Manbhum and Singhbhum; while the excessive rain in July and the early part of August caused heavy floods and consequent damage in Darbhanga and also in Champaran and Muzaffarpur. Other districts of Bihar and also Nadia, Murshidabad and Cuttack suffered to some extent from floods. The rainfall in September was generally well distributed and beneficial to the standing crops. More rain is wanted for standing crops in most districts of the Burdwan Division. Injury by insects is reported from Cuttack and Muzaffarpur.

Area sown.—The total area sown with winter rice this year is estimated at 20,821,200 acres. Last year's area was 21,232,900 acres. The normal area under the crop is returned as 20,800,700 acres.

Outturn.—From the summary of the district returns appended to this report, it will be seen that four districts report more than a normal crop, viz., Sonthal Parganas (108 per cent.), Bhagalpur (106 per cent.), Sambalpur (105 per cent.) and Ranchi 103 per cent.). Thirteen districts report crops between 90 and 100 per cent., seven districts between 80 and 89 per cent. and six districts between 70 and 79 per cent. In the remaining three districts the outturn of the crop is reported as follows:—Nadia (67 per cent.), Bankura (65 per cent.) and Monghyr (69 per cent.). According to the District Officers' estimate the Provincial outturn comes out to 90 per cent. of the normal. The damage done by floods has probably been a little exaggerated in some districts, and at present I estimate that the total outturn will be about normal. But it is too early to make a definite forecast as the outturn depends on the rainfall in October.

W. H. BUCHAN,

Offg. Director of Agriculture, Bengal.

Howrah ...	Sadar	110,736	90,680	49,608	47,400	46,800	88	7				June and July	The weather has been not so favourable in the Sadar subdivision. More rain is wanted for the growth of the crop. The condition of the crop is fair. The date of sowing was late. In the Sadar subdivision the crop is expected to be worse than that of last year, while in the Uluberia subdivision it is expected to be better. The decrease in the area sown is due to want of rainfall at the sowing season.

REPORT ON THE WORKING OF THE LICENSED JUTE WARE-HOUSE AND FIRE-BRIGADE ACT, 1909-1910.

NOTIFICATION.

No. 996T.-M.—The 7th October 1910.—The following is published for general information.

H. L. STEPHENSON,
Offg. Secy. to the Govt. of Bengal.

No. 8812, dated Calcutta, the 5th July 1910.

From—R. T. DUNDAS, Esq., Offg. Commissioner of Police, Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit, in accordance with section 41, Act I of 1893, the following report on the working of the Fire Brigade, in the Town and Suburbs of Calcutta and in Howrah during the year 1909-1910.

2. The force at the close of the year under review is shown in Appendix I attached. There has been no alteration in the strength of the Fire Brigade during the year under review.

3. A statement showing receipts and expenditure of the Fire Brigade for 1909-10 is enclosed.

The year opened with a balance of Rs. 25,049-15-9, the receipts amounted to Rs. 1,21,293-2 and the total expenditure to Rs. 1,08,529-8-11 leaving a balance of Rs. 37,813-8-10 at the close of the year.

RECEIPTS.

Fees under Petroleum Act were less than the estimate by Rs. 36-8. No judicial fines were realized under the Act and the sale proceeds of unserviceable stores, horses, etc., show an increase of Rs. 320-10. The proceeds derived from hire of engines were greater than the estimate by Rs. 3,148, the net result being an actual increase in receipts over the estimate by Rs. 3,432-2.

EXPENDITURE.

(*a*) Under the head "Establishment" there was a decrease of Rs. 2,338-3-11 as compared with the estimate due to ordinary leave vacancies and to the reduction of the rate of grain allowance by Government.

(*b*) The total expenditure under the head "Contingencies" amounted to Rs. 62,234-7-7. This figure includes Rs. 9,668 paid during the year on account of the pair-horse turntable fire ladder, sanctioned by Government and included in the Fire Brigade Budget of 1908-09, as also Rs. 3,043-5 paid during the year under notice, being the cost of a quantity of canvas delivery hose provided for in the budget of 1908-09. Deducting the above two items the expenditure under head "Contingencies" amounted to Rs. 49,523-2-7 showing a decrease of Rs. 13,686-13-5 as compared with the estimate.

This decrease is mainly due to the fact that purchases of horses, harness implements, engine stores, clothing, etc., remained in abeyance during the last three months of the year, pending enquiries about the requirements and equipment of the force.

(*c*) Under head "Other charges" there was an increase of Rs. 982-7-3 due to increased expenditure on "water pressure."

4. One hundred and twenty-five fires of all degrees occurred during the year 1909-10 against 170 in 1908-09 and 148 in 1907-08.

Twenty-nine serious fires in Town, River and Docks, 21 in the Suburbs, and eight in Howrah, and further three fires at which the Fire Brigade attended, outside the jurisdiction, in the Aratoon Jute Mill (24-Parganas), Lilooah and at Matiabruz (24-Parganas).

There were also 64 petty fires—29 in the Town, on the River and in the Docks, 33 in the Suburbs, and 2 in Howrah.

Twenty-one of the total number of fires occurred in buildings licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893.

(6) *21st January.*—At Durmahatta Street, two large pucca houses, 94 corrugated and tiled huts containing timber and household effects, Rs. 7,00,000. Fire lasted 76 hours 30 minutes.

The conduct of the Brigade at this fire has been the subject of an enquiry by a committee appointed by Government and the matter has been fully dealt with elsewhere.

(7) *23rd January.*—At Kangraputti (Burra Bazar), chests of thread, buttons, etc., which were stored in two rooms on the ground floor, Rs. 15,000. Fire lasted 2 hours and 30 minutes.

(8) *31st January.*—At Esplanade moorings on board S. S. "Gregory Apcar," bales of gunnies, cotton and bags of crushed food, Rs. 50,000. Fire lasted 3 hours.

(9) *9th February.*—At Howrah Road (Banda Ghat), two godowns containing cotton, Rs. 10,000. Fire lasted 6 hours and 15 minutes.

(10) *1st March*—At Galiffe Street (Chitpur), a godown containing jute (damaged by fire and water), Rs. 50,000. Fire lasted 91 hours and 10 minutes.

(11) *22nd March.*—At Sibpur Jute Mill, three godowns containing gunnies and machinery, Rs. 2,00,000. Fire lasted, 23 hours.

5. *Repairs.*—During the year under review no important repair work to the engines has been necessary. All petty repairs were done by the Fire Brigade staff.

6. Two turn-outs consisting of two fire engines, two hose-carts, two brakes, one water tower and fire escape, 12 horses and all necessary hose and gear are always kept in readiness at head-quarters in case of a call.

7. *Payment by Municipalities.*—In the year under report the percentage fixed by Government as payable by the several Municipalities concerned were as follows:—

August	5	February	11
September	6	March	22
	Total	125.	

9. *Prosecutions.*—Three licenses were granted under section 36, Act I of 1893, for letting off fireworks, rockets, etc. None of them were suspended under section 37 of the Act during the year. Three persons all of whom were convicted and fined were prosecuted, for letting off fire works under section 66, Act IV of 1866.

10. *Water-supply.*—The water used by the Brigade is obtained from the street mains, wherever the unfiltered water-supply has been extended. It is however, necessary, as soon as the Brigade leaves the station, for the pumping station to be rung up on the telephone and a request made to put on pressure.

Where there are no street mains available, water is obtained from any tank, and in some cases, when the tide allows, from the river Hooghly direct.

In Howrah the supply of water from tanks is very scanty and is getting less and less every year, there is no other source of supply except from the river Hooghly.

Howrah, Chitpur, Garden Reach, and a portion of the added area are not supplied with unfiltered water. Mains, however, are now being laid down in the added area.

11. *Telephones and Fire alarms.*—At the head quarters, Lall Bazar, there is a telephone exchange with 59 connections (and space for 41 more) to all police stations.

Communication can also be obtained through the Central Telephone Office and Government Telegraph Office with any subscribers on the General Telephone Exchange. The direct commmunication from head-quarters is principally with thanas and pumping stations and also to the Port Commissioner's Fire-Float stationed off Fort Point.

The East Indian Railway goods sheds are in direct telephonic communication with Howrah Fire Station and also have a fire alarm (the only one in Calcutta) at the Howrah Fire Station. Besides the telephone for the purpose of reporting fires, there are look-outs at all fire stations where steam or manual engines are kept.

At head-quarters and Howrah, Tell-Tale clocks have been introduced on the look-out towers and continue to be a useful check.

The Port Commissioners have supplied instantaneous couplings to all their appliances including the Fire Floats.

12. *New fire appliances.*—The 65-foot combined water-tower and fire escape ordered from Messrs. Merryweather & Sons, London, has been received and taken into use.

13. *Calls.*—Calls to the number of 125 were recorded during the year, being a decrease of 45 under the previous year. The above figures include 7 River and mill fires attended by the Brigade assisted by the Port Commissioner's Fire Floats. The distance travelled to and from fires by the Brigade was 12ž miles. Fifty-nine fires were attended by the Brigade during the year. The average distance travelled per fire was 2·4 miles.

14. *Fatalities.*—From 1st April 1909 to 31st March 1910, 11 fatalities occurred at fires:—

(1) On the 25th May, 4 persons died in hospital from the effects of burns received at a fire at Upper Chitpur Road, caused by the explosion of 200 bottles of mythelated spirits.

(2) On the 11th March, at Anando Gopal Palit's Road, an old woman, nearly blind and crippled, was burnt to death in her *goleputta* hut.

(3) On the 14th March, at Ahiripooker, at a fire which broke out among some *goleputta* huts, two persons were burnt to death whilst asleep in one of the huts.

(4) On the 14th March, at Meah Bagan, at a fire which broke out among some *goleputta* huts two (female) children lost their lives, the parents were at work in a mill close to the locality and left the two children in the hut and on their return found them burnt to death.

(5) On the 22nd March, at a fire at Sibpur Jute Mill, Howrah, two persons lost their lives (1) Khoda Bux, (2) Kunga Mulla. The body of No. 1 was found among the ashes, No. 2 died in hospital from the effects of burns and from injuries received from jumping out of the window.

15. *Miscellaneous.*—There is a forge attached to the Brigade which does most useful work, not only in shoeing the horses, but in making up a great deal of iron work.

16. Chief Engineer Mr. J. Holmes, who had been on furlough since 30th August 1907, retired on the 30th July 1909. Owing to the death of acting Chief Engineer, Fulthorpe, on 21st February 1909, the post was vacant from 1st April 1909 up to the 14th August 1909 when Mr. J. Milne was appointed to act. He held the post till the end of the year.

17. *Purchase of a motor fire-engine.*—It has been decided to purchase a motor fire-engine and tender at a cost of Rs. 45,000.

R. T. DUNDAS,

Offg. Commissioner of Police.

No. 662M.-7—I-25, dated Chinsura, the 9th July 1910.

From—THE HON'BLE MR. D. J. MACPHERSON, C.I.E., I.C.S., Commissioner of the Burdwan Division,

To—The Secretary to the Government of Bengal, Municipal Department.

IN continuation of this office letter No. 635M.-5—I-25, of the 2nd instant, I have the honour to submit herewith a copy of the revised Annual Report on the working of the Licensed Warehouses and Fire Brigade Act in the Howrah Municipality during the year 1909-10, submitted by the Chairman of that Municipality.

2. There was a rise during the year in the number of licensed warehouses from 328 to 336, but the income from license fees fell from Rs. 7,248 to Rs. 6,470. The enforcement of the proviso of section 10 of the Act may account for this decrease.

No. 527, dated Howrah, the 5th July 1910.

From—W. S. HOPKYNS, ESQ., I.C.S., Chairman, Howrah Municipality,

To—The Magistrate of Howrah.

WITH reference to letter No. 634M.-4—I-25, dated the 1st instant, to your address, regarding the submission of the report on the working of the Licensed Warehouses and Fire Brigade Act, I of 1893, for 1909-10 in the form enclosed with your memorandum No. 432M., of the 9th ultimo, I have the honour to submit the same in the prescribed form. The form having been received at the beginning of the last month only, it was not understood that the report for 1909-10 also should have been submitted in this form.

2. The annual fees charged in respect of the licenses were—

(1) Jute warehouses ... 2 per cent. on the annual value.
(2) Cotton warehouses ... $1\frac{1}{2}$ per cent.
(3) Wood depôts ... 2 per cent.
(4) All other depôts ... 1 per cent.

The proviso to section 10 of the Fire Brigade Act is strictly followed, about half the expenditure being met from the General Fund of the Commissioners.

3. The demand made on this Municipality is 11 per cent. of the total expenditure as budgetted for by the Commissioner of Police, Calcutta.

4. There were 77 prosecutions against 44 in the previous year.

5. In October 1909, a Government notification was published on a requisition from the Commissioners to the effect that warehouses where *kutcha* bales of jute are stacked should also be licensed under this Act.

No. 87J., dated Calcutta, the 29th July 1910.

From—C. F. PAYNE, ESQ., I.C.S., Acting Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit the following report under section 41 of Act I (B.C.) of 1893 for the year 1909-10, in accordance with the instructions contained in your letter No. 387T.M., dated the 27th May 1910.

During the year under report the fees under sections 10 and 24 were levied at 6 per cent. on the annual valuation of warehouses.

As it was anticipated that the budget amount would be met out of the receipts under the warehouse fees and penalties added to the amounts contributed by Government and from the General Fund of the Corporation, no recourse was had to the special taxation provided for under section 25 of the Act.

About 81 timber-yards were burnt down in the big fire, which broke out on the 21st January 1910 in Darmahatta Street, and a petition was filed by the owners applying for remission of the Fire-Brigade tax in respect of these yards for the year under report. The Commissioners remitted the fees due, which amounted to Rs. 2,237-8.

The statement of receipts and disbursements of the Licensed Warehouse Fund, as well as that of the Jute and other Licensed Warehouses for the year 1909-10, are appended.

I.—Statement of Receipts and Disbursements.

C. MITRA,
License Officer.

No. 119½M., dated Calcutta, the 8th/21st September 1910.

From—The Hon'ble Mr. S. L. Maddox, Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

With reference to the orders of Government No. 1116M., dated the 6th, August 1910, I have the honour to submit herewith the reports on the working of the Licensed Jute Warehouse and Fire Brigade Act, I (B. C.) of 1893, for the year ending the 31st March 1910, in the Cossipore-Chitpur, Maniktala and Garden Reach Municipalities. These reports are received from the Chairmen of those municipalities, and have been prepared in accordance with the instructions contained in Government order No. 386 T.M., dated the 27th May 1910.

No. M. 280/6 of 1910-11, dated Alipore, the 3rd September 1910.

From—J. A. L. Swan, Esq., c.s., Offg. Magistrate of the 24-Parganas,
To—The Commissioner of the Presidency Division.

With reference to your letter No. 227 M., dated the 3rd August 1910, and subsequent reminder, I have the honour to submit herewith copies of the reports on the working of the Licensed Jute Warehouse and Fire Brigade Act, I (B.C.) of 1893, for the year ending the 31st March 1910 in the Cossipore-Chitpur, Maniktala and Garden Reach Municipalities.

No. 1315, dated Talla, the 26th August 1910,

From—Rai Kripanath Dutt Bahadur, Chairman, Cossipore-Chitpur Municipality,
To—The Magistrate of the 24-Parganas.

With reference to your letter No. M. 280/3 of 1910-11, dated 13th July 1910, and subsequent reminders, calling for my report on the working of the Jute Warehouse and Fire Brigade Act for the year 1909 10, I have the honour to submit herewith the two statements, marked I and II, showing respectively the receipts and disbursements of the jute warehouse fund and the licensed warehouses as prescribed in Government order No. 386 T.M., dated 27th May 1910.

2. The first step taken for the recovery of the license fees shown in statement I, was the service upon the occupiers of warehouses of notices demanding payment of the amounts specified therein. The next was the preparation and transmission to the Commissioner of Police of a list of names of those that did not pay the fees on receipt of the notices for their prosecution. Payments were invariably made as soon as the Commissioner of Police started the prosecution.

3. In the year under report the rate of the license fee was reduced from Rs. 5 to Rs. 3 per cent. on the annual valuations of the warehouses, with the object of paying up from the general fund in which the jute warehouses fund has merged, a portion of the proportionate share of the cost of maintaining the Metropolitan Fire Brigade.

4. Statement I will show that no rates under section 25 (1) B and C were levied during the year of report and that no fines and penalties were credited. The incidents of taxation in this Municipality being very high, the Commissioners did not think it advisable to impose any rates in addition to those already in force in their area.

5. The fines imposed by the Deputy Magistrate, Sealdah, before whom the defaulters were prosecuted were by mistake, remitted to the Calcutta Corporation. Steps have already been taken for obtaining a refund of the amount from the Corporation.

No. 746, dated Calcutta, the 9th July 1910.

From—The HON'BLE MR. G. H. C. ARIFF, Chairman, Maniktala Municipality,
To—The Magistrate of the 24-Parganas District, Alipore.

I HAVE the honour to submit the statements of accounts of receipt and disbursement in the form prescribed by the Government of Bengal, Municipal Department, No. 386 T. M., dated the 27th May 1910, and the statement No. II showing the number and locality of the warehouses licensed under the Act I of 1893 and to say that the provisions of the Act have been carried out in levying the fees on the annual value of holding used for storage of jute and inflammable articles under the Act.

The revenue derived during the year under review amounted to Rs. 2,552-9-6 including the mutation fee under section 11 as shown in the statement I and fines and penalties under the Act.

License fees were leived on jute warehouses at 4 and 6 per cent. on the annual value of holdings and at 10 per cent. for the storage of articles of other descriptions under section 45(1) and (2) of the Licensed Warehouses and Fire Brigade Act of 1893.

The jute godowns, firewood, packing case, hay and straw depôt are mostly situated near the Circular Canal which form the northern, western and southern boundaries of this Municipality. Soora Jute Mill and Messrs. W. M. Briggs and Co.'s Jute Mill are the two mills within this Municipality situated in the north of Narcoldanga Main Road.

There are some 78 licensed warehouses within this Municipality as noted in statement II.

No. 183 G.M., dated, the 22nd July 1910.

From—H. B. Poole, Esq., Chairman, Garden Reach Municipality,
To—The Magistrate of the 24-Parganas.

With reference to your No. M. $\frac{280}{2}$ of 1910-11 of the 13th instant, I have the honour to submit the following report on the working of the Licensed Jute Warehouse and Fire Brigade Act in this Municipality for the year 1909-10 with the statements prescribed by Government order No. 386 T.M., dated the 27th May 1910.

2. During the year under review the total revenue from jute warehouse fees and from rate under section 25(*b*) of the Fire Brigade Act as shown in statement I was Rs. 1,528-10. The share of expenditure allotted to this Municipality by the Commissioner of Police which was discharged by two instalments, was Rs. 2,916. There was thus a deficit of Rs. 1,387-6-0 which was met from the general funds of the Municipality in levying the jute warehouse fees the limitations prescribed by the provisions to section 10 of the Fire Brigade Act were strictly observed. The rates at which the fees were levied were 2·9 per cent. on the annual value of all large warehouses, Rs. 5 per cottah of all wood and straw depôts and one-half per centum on the annual value of all *bustee* lands with huts, if any on them.

3. A list of licensed warehouses during the year under report is given in statement II.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; d, drizzling rain; p, passing temporary showers; /, strong wind; l, lightning; ⌒, dew.

Municipal and Local.

NOTIFICATIONS.

No. 994T.M.—The 18th October 1910.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Mr. J. H. Scott to be the Chairman of the Kamarhati Municipality, in the district of 24-Parganas, *vice* Mr. A. Craig, resigned.

24-Parganas.

No. 1003T.M.—The 18th October 1910.—The following draft orders, which the Lieutenant-Governor proposes to make in exercise of the powers conferred by section 221 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), are published for the information of persons likely to be affected thereby.

Hooghly.

2. The draft will be taken into consideration on the 21st November 1910, and any objection or suggestion which may be submitted through the District Magistrate and received by the undersigned before that date will be duly considered.

Draft Orders.

In exercise of the power conferred by section 221 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and upon the application of the Commissioners of the Bansberia Municipality, in the district of Hooghly, made in pursuance of a resolution passed at a meeting specially convened to consider the question, the Lieutenant-Governor is pleased to extend the provisions of sections 224 and 230 and so much of sections 270 and 271 as relates to sections 224 and 230 of the said Act to the said Municipality.

No. 1005T.M.—The 18th October 1910.—In exercise of the power conferred by section 640 of the Calcutta Municipal Act, 1899 (Ben. Act III of 1899), read with section 22 of the Bengal General Clauses Act, 1899 (Ben. Act I of 1899), the Lieutenant-Governor is pleased to declare his intention to make the following amendments in Annexure I to Notification No. 822T.M., dated the 25th July 1907 (published at page 94 of Part IB of the *Calcutta Gazette* of the 31st July 1907), by which certain portions of the said Calcutta Municipal Act were extended to part of the town of Howrah, namely:—

Howrah.

I. Before the first entry in the first table under the head "Chapter XLIV, Penalties," insert the following:—

Section 312 ...	Requisition to provide privy and urinal for building, land or bustee.	Fifty rupees.

II. Before the first entry in the second table under the said head, insert the following :—

Section 312 ...	Requisition to provide privy and urinal for building, land or bustee.	Five rupees.

2. Any objection to the said amendments on the part of the Commissioners of the Municipality of Howrah or any inhabitant thereof should be submitted in writing, through the District Magistrate, Howrah, to the undersigned before the 15th November 1910.

Purnea.

No. 1013T.M.—The 18th October 1910.—In exercise of the power conferred on the Local Government by clause (3), section 53 of the Calcutta Hackney Carriage Act, 1891 (Ben. Act II of 1891), the Lieutenant-Governor is pleased to confirm the following by-laws, which have been framed by the Commissioners of the Purnea Municipality, under clause 1 of the said section.

H. WHEELER,
Secy. to the Govt. of Bengal.

By-laws made by the Commissioners of the Purnea Municipality under sub-section (1) of section 53 of the Calcutta Hackney Carriage Act, 1891 (Ben. Act II of 1891).

A.—First Class Carriages.

1. (*1*) First class hackney carriage licenses shall only be granted for comfortable, roomy, clean, easy-running vehicles of a description superior in all respects to second class carriages.

(*2*) The carriages may be of any approved pattern, for example, broughams, landaus or phaetons.

(*3*) Each carriage must be provided with a thoroughly good pair of lamps.

2. No carriage shall be licensed as first class unless it is to be drawn by a good pair of horses.

B.—Second Class Carriages.

3. No carriage shall be licensed as second class unless it be in a thoroughly fit and proper condition.

4. Every carriage of the kind known as "Palki Gharry" or "Brownberry" must conform to the following dimensions :—

Breadth of carriage inside, not less than 36 inches.
Depth of seat inside, not less than 18 inches.
Width of well of carriage between cushions, not less than 24 inches.
Height inside from roof to seat, not less than 40 inches.

5. The doors of every carriage must swing on proper hinges and locking bolts, and the handles must be securely fitted, and four hand-straps must be fitted near the doors.

6. The roof of every carriage must have a waterproof covering, and the inner portion thereof must be of polished wood.

7. The cushions and backs of every carriage must be covered with leather or leather cloth, and the cushions must be stuffed with ordinary coir stuffing.

8. The floor of every carriage must be provided with a coir foot-mat of suitable dimensions.

9. The springs and axles of every carriage must be of thoroughly sound manufacture, all the iron-work must be strongly put together, and the carriage must be provided with a good pair of lamps.

10. No carriage drawn by a pair of horses shall be licensed as second class unless both animals are fit for their work and are at least 13 hands high; and no carriage drawn by a single horse shall be so licensed unless the animal is fit for its work and is at least 14 hands high.

11. The figure "II" in Roman characters must be painted on the outside of the doors of every second class carriage.

C.—Third Class Carriages.

12. No carriage shall be licensed as third class unless it is in a clean and safe condition, has sufficient room inside to seat four persons, and has stout and steady axles, springs and wheels and a good pair of lamps.

13. (*1*) When drawn by a pair of ponies, each pony must be in a fit condition for work and at least 12 hands high.

(*2*) When drawn by a single pony, the animal must be fit for its work and at least 13 hands high.

14. The figure "III" in Roman characters must be painted on the outside of the doors of every third class carriage.

D.—General.

15. No animal shall be deemed fit for its work unless it is fit in respect of height, bone, muscle and condition and is equal to the work of drawing the carriage.

16. The harness of every carriage must be of strong leather in good condition. No chain or rope traces, unless they be covered with leather, and no string fastenings, shall be used.

17. Every second class and third class carriage must have the owner's name legibly written on the outside, above the doors, in addition to the plate which, by section 16 of the Calcutta Hackney Carriage Act, 1891, is required to be affixed thereto.

18. (*1*) Every carriage registered under the Calcutta Hackney Carriage Act, 1891, shall be subject to inspection by the Registering Officer at any time at the place at which it is kept.

(*2*) The owner of any such carriage shall, if so required by special notice from the Registering Officer, produce the carriage and its horses at the office of the Registering Officer for the purpose of inspection: provided that such production shall not be required oftener than twice during the currency of the license granted for the carriage under these by-laws.

19. Every place where any hackney carriage or its horse is kept shall be open to the inspection of Municipal officers at all reasonable hours.

20. Every person applying for a driver's license must be acquainted with the principal places and streets in and around Purnea, and must have a thorough knowledge of the rates and fares prescribed in the Schedule to the Act.

21. Every person applying for a license as driver, who has previously acted in that capacity, must, if required, produce a certificate from his last employer.

22. Every first class and second class carriage, when plying for hire, must carry a driver and a syce, who must each be decently dressed.

23. Every driver must see that nothing be placed at the back of his carriage so as to prevent a full view of the registered number on the plate affixed to the carriage, and that the lamps have the registered number of the carriage painted on them.

24. (*1*) A table of fares according to distances from various centres shall be prepared and printed under the authority of the Commissioners, and a copy of the same shall be supplied by the Registering Officer to the owner of every carriage.

(*2*) The driver of every carriage must produce the said copy whenever required by a hirer of the carriage.

No. 1030T.M.—The 18th October 1910.—In exercise of the power conferred by section 351 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), the Lieutenant-Governor is pleased to confirm the following by-laws framed by the Commissioners of Sitamarhi Municipality :—

Muzaffarpur.

By-laws.

1. No person shall sleep or sit on any road so as to obstruct traffic.

2. No parent or guardian of any child below the age of seven years shall carelessly allow such child to play or wander about on any road so as to obstruct traffic.

3. No cart shall carry a load in excess of twenty maunds on any road without the previous permission of the Commissioners.

4. No person shall keep standing on any road any cart or conveyance of any kind, in such a manner as to cause inconvenience to the public, for any time longer than may reasonably be required for loading or unloading or for taking up or setting down passengers.

5. No person shall use any portion of a road as a place for keeping any carriage or cart or any horse or other animal, unless it has been set aside by the Commissioners for that purpose.

6. No person shall abandon or let loose any cattle or any other animal on any road, and no owner of cattle or any other animal shall allow the same to wander unattended on any road.

7. No person shall fly a kite on any road.

8. If any person commits a breach of any of the by-laws referred to in column 1 of the following table, he shall be liable to fine not exceeding the sum mentioned opposite thereto in column 2 of that table:—

By-laws.	Maximum fine.

NOTICE TO TENDERERS.

SEALED TENDERS for the supply of the undermentioned supplies from 1st April 1911 to 31st March 1912 will be received by the Station Supply Officer, Presidency Brigade, up to 12 noon on the 10th November 1910.

II.—Forms of "Tenders" and Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited are obtainable on payment at the rate of Re. 1 per set on application in writing to the abovenamed officer up to the 4th November 1910.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a $\frac{\text{Presidency Bank}}{\text{Treasury}}$ Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds, as earnest-money, at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum of Rs. (as noted below), which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest-money.

VI.—The approval or rejection of tenders rests with the General Officer Commanding 8th (Lucknow) Division, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Thursday, the 10th November 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of firewood" and addressed to the Station Supply Officer, Presidency Brigade, and not to any officer by name.

XI.—Tenders which do not comply with the above conditions will be rejected.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth or the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PERSIAN GULF.

Shatt al Arab River—Position of Buoys.

No. 433 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 92M. of 1910), are republished:—

Position.—(1) Black Conical Buoy:—
N. 46° W. about 2·6 miles from the Outer Bar Buoy.

(2) No. I Buoy—
N. 39° W. from Black Conical Buoy.

Remarks.—The whole Channel appears to have shifted to the eastward, and the Directions in the Persian Gulf Pilot are not to be relied upon, as there is very little water to the westward of the Buoys.

The following appears to be the best course for entering the River:—

Pass about 5 cables to the eastward of the Outer Bar Buoy and steer for a point 4 cables to the eastward of the Black Conical Buoy; then alter course to pass about 3 cables to the eastward of No. I Buoy and from there proceed N. 40° W. until Fao Telegraph Station bears N. 69° W.

The discoloured water on the banks affords a guide to the Channel, but is not to be relied on, especially after strong winds.

The above course will give a least depth of 3 fathoms over the Bar.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE POLICE DEPARTMENT FOR THE YEAR 1909.

POLITICAL DEPARTMENT—POLICE.

Darjeeling, the 15th October 1910.

RESOLUTION—No. 3296P.—D

READ—

The Report on the Administration of the Police Department for the year 1909.

Read also—

The Report for the year 1908 and the Resolution of Government thereon.

Mr. L. F. Morshead, I.C.S., held charge as Inspector-General of Police from the 1st January to the 18th March, and again from the 25th October to the 31st December, and Mr. R. T. Dundas from the 19th March to the 24th October. The report under review has been compiled by Mr. Morshead.

2. *Political Crime.*—In reviewing the Calcutta Police Report for 1909 His Honour has already had occasion to notice the result of the Alipore bomb case,—the most important of the political cases that occupied the attention of the Courts during the year under review. He desires to repeat, with special reference to the provincial force, the expression of his appreciation of the work of the Police in that case which he then placed on record. Apart from the Alipore case, the most notable feature of the year under this head was

the continuance of the series of political dacoities which commenced in 1908. The Bighati, Morehal, and Raita cases of that year were succeeded by outrages at Netra (24th April), Nangla (16th August), Haludbari (27th October), and Buikara (26th December). The investigation of these cases has met with a large measure of success. Of the ten persons sent up in the Haludbari case seven were convicted and sentenced to long terms of imprisonment; while the Nangla affair led to the Khulna conspiracy case, which also terminated successfully in the Courts. The investigation of the dacoity at Netra has resulted in the institution of the Howrah gang case, in which 45 persons are awaiting their trial before the Special Tribunal of the High Court. These dacoities have afforded disquieting evidence of the existence of revolutionary organizations, composed of educated men, prepared to prey upon the community at large in furtherance of their mistaken ends. His Honour believes, however, that these societies have now for the most part been broken up or crippled; and he trusts that with their disappearance the Province has seen the last of this class of political crime in an organized form. For this result Bengal has to thank the Police—and in particular the Special Department—who have exhibited in the conduct of these intricate and far-reaching enquiries qualities of skill, care, and determination worthy of the highest praise. His Honour is unable to leave the subject of political crime without once more giving public expression to his sense of the loss that Government has sustained by the dastardly murder on the 24th January 1910 of Khan Bahadur Shamsul Alam, who was throughout the year the senior investigating officer of the Special Department.

3. *Professional Crime.*—The Criminal Investigation Department continued to do valuable work in dealing with professional crime. Attention was directed to the numerous thefts that had been occurring on the East Indian Railway and a patrol system was introduced, with the result that the number of such cases was reduced from 4,202,—the figure for 1908,—to 3,303. These professional train thefts however require, and are receiving, further attention. Other notable successes were obtained in dealing with dacoities on the Purnea frontier and in the 24-Parganas. In Purnea 126 habitual dacoits were successfully prosecuted for bad livelihood, with the result that the number of dacoities during the last half of the year under report fell to 8 as against 33 during the corresponding months of 1908. In this connection the Lieutenant-Governor has to acknowledge the cordial assistance rendered by the British Resident in Nepal,—Lieutenant-Colonel Manners-Smith, V.C., C.I.E., on whose initiative rules were introduced providing for co-operation on more regular lines with the Nepalese authorities. There is little doubt that these rules will result in the better control of this troublesome form of border crime. In the 24-Parganas also several important gangs were broken up in the Barrackpore and Barasat subdivisions. In the latter area 100 persons were prosecuted, and 90 of these were either convicted or bound down. The Lieutenant-Governor observes with satisfaction that the energy and initiative of the Subdivisional Officer, Babu Bhupendra Nath Mukherji, Deputy Magistrate, contributed in a great measure to these successful results. The control of professional crime depends largely on the careful arrangement and indexing of the materials collected, and the Lieutenant-Governor is glad to note that satisfactory progress was made during the year with this important branch of the work of the department.

4. *Ordinary Crime.*—The staple crimes against property, viz. burglary and theft, show a return towards normal conditions after the unduly high figures of last year. The decline is due primarily to the improvement in agricultural conditions, but a contributing factor is no doubt to be found, as the Inspector-General claims, in the activity displayed in instituting prosecutions for bad livelihood, the numbers of which have risen by nearly 25 per cent. It appears however that there is still much room for improvement in this class of work. The Police Code contains instructions for the systematic recording of evidence against suspects, and for its examination from stage to stage as it accumulates. The system is one, as Mr. Morshead notes, which has been developed by Police officers of wide experience, and it is essential that it should

not be rejected without a thorough and methodical trial. This, it appears, it is not receiving. The matter requires the close attention of the Inspector-General, and the Lieutenant-Governor desires that the progress made in enforcing these instructions may be fully dealt with in the next annual report.

Greater activity was shown during the year in instituting proceedings under sections 107 and 145 of the Criminal Procedure Code, the number of such cases having increased by 25 per cent. The value of preventive measures under these sections is reflected in the statistics of cases of riot and unlawful assembly, which show a satisfactory decrease of 15 per cent. as compared with the figures of the preceding year.

The figures compiled by the Inspector-General showing the increase within the last fifteen years of cognizable crime and, in particular, of dacoity and burglary, cannot be regarded as satisfactory. The Lieutenant-Governor, however, is not disposed to assign too much weight to them. He is not prepared to accept them as representing the actual increase in crime in the absence of any evidence of the effect of the improvement in reporting that has undoubtedly been carried out during the fifteen years. Nor is it possible to draw deductions from an increase of crime as to the efficiency or non-efficiency of the Police without a careful examination of such factors as seasonal vicissitudes, the improvement of communications and the growing mobility of the people, and in particular the effect of the influx of large numbers of temporary immigrants of the labouring classes into the districts near Calcutta. The figures however certainly call for fuller enquiry, and separate instructions will issue to the Inspector-General on the point. Meanwhile the figures serve to draw attention to certain defects in method. The need for more systematic surveillance has been referred to above. The Lieutenant-Governor endorses the Inspector-General's views as to the danger of relying too exclusively on gang cases, and he is glad to observe that efforts are being made to reduce the transfers of Sub-Inspectors. It is as important that the Sub-Inspector should know his station area as that the District Officer should know his district. The statistics of transfers for 1909 are far from satisfactory, and the Lieutenant-Governor expects to see an improvement in this respect in future reports.

5. *Rural Police.*—The Inspector-General has devoted considerable space to criticisms of certain aspects of the President system. The subject is one which can be approached from two points of view. Primarily, the chaukidar is an integral member, or rather the very foundation-stone, of the police system. As the Inspector-General puts it, the basis of the whole fabric of police work is information,—information of the occurrence of crime, of facts throwing suspicion on criminals, and of the movements of *surveillés.* For such information the officer in charge of a police station depends,—and must continue to depend,—on the village police, for the country cannot afford any other agency. If it is proved that the President system unduly weakens the control of the Police over their principal source of information, the question of its abolition will have to be seriously considered. From another point of view, however, the President system represents one of the principal means of securing a closer association of the people with the administration, and as such it is the settled policy of Government that it shall not be abandoned without an exhaustive trial. Nor can it be condemned until Government has been placed in a position to appoint to the districts concerned whole-time chaukidari officers who can keep in close touch with the Presidents and guide them in their work. The system is still in the experimental stage; but having regard to the large measure of support which the Inspector-General's criticisms have received from District Officers, it appears not improbable that it may require modification in certain respects. The Lieutenant-Governor desires that the Inspector-General of Police will submit specific proposals for such modifications as may in his opinion be required to preserve unimpaired the exercise by the chaukidar of his primary function of supplying information to the Police.

6. *Frequency of Remands.*—The Lieutenant-Governor regrets to observe that practically no improvement has been effected in this important matter. The fluctuations from district to district are remarkable. Thus in Cuttack 78 per

cent. of the cases tried were disposed of in two hearings or less, while in Patna and Shahabad the percentage fell to under 30 per cent. The Lieutenant-Governor agrees that it is difficult to explain these differences except upon the hypothesis of better method and greater energy displayed by some Courts than by others. Patna, Shahabad, Purnea, Jessore and Khulna show the worst results, and the subject requires the unremitting attention of the Magistrates of these districts. The Lieutenant-Governor further desires that officers inspecting the Courts of subordinate Magistrates will bring direct to the notice of Government in the Appointment Department cases of habitual failure of duty in this respect. The subject should also receive the special attention of District Magistrates when submitting the annual character reports of the officers serving under them.

7. *General.*—The Police have had to bear perhaps more than their share of criticism during the year, much of it ill-directed and not a little malicious. What is likely to be a more effective stimulus to reform is the new spirit that the Inspector-General believes is coming into being—a genuine desire on the part of the educated members of the force to raise the standard and public reputation of their service. If the Police force is to free itself from the standing charges of corruption and inefficiency, and to occupy its proper place in the estimation of the public, the reform must be based on a recognition of its necessity on the part of the Police themselves. That the influence of the better educated class of officers, whose introduction is a result of the Police Commission's recommendations, should already have made itself felt in the growth of a feeling of self-respect within the force is a hopeful augury for the future.

8. In conclusion the Lieutenant-Governor desires to thank Mr. Morshead for his careful administration of the Department during the year, and for his interesting report. His acknowledgments are also due to those officers who are mentioned by the Inspector-General as having done good work during the year, and in particular to Mr. Daly for his able control of what is now the Special Department.

ORDER.—Ordered that copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

By order of the Lieutenant-Governor of Bengal,

E. V. LEVINGE,

Offg. Chief Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

SECOND REPORT ON THE COTTON CROPS OF BENGAL, OCTOBER 1910.

[On an average of the five years ending 1908-09 the area under the cotton crop in the territory to which this forecast relates represents about 0·3 per cent. of the total area under cotton in India.]

Explanatory.—This forecast deals with the progress of sowings and with the condition of the standing crop since the publication of the first report in August last.

Character of the season.—The early variety is chiefly grown in the Sonthal Parganas, Manbhum, Singhbhum, Angul, Ranchi and Sambalpur, and the late variety is mostly cultivated in North Bihar and Singhbhum. The early crop is sown generally before the rains and the late crop is sown partly before and partly after the rainy season. Since the publication of the first report in August last the weather conditions are reported to have been favourable for the growth of both early and late cotton, and the condition of the standing crops is good in most districts. Some damage however was done by floods to the late crop in Patna.

Area sown.—The total area sown with the early crop is estimated at 32,253 acres against 33,379 acres last year.

The area sown with late cotton up to date is reported to be 28,369 acres. Sowings have not yet commenced in Bankura, Cuttack and Balasore. Last year's area under this crop was 33,286 acres.

* The report is for the week ending the 8th October 1910.

GENERAL SUMMARY.—Rain fell in all the districts of the Province except Patna, Shahabad, Saran, Champaran, Darjeeling and Palamau. The fall was heavy in Burdwan, Bankuara, Midnapore, Hooghly, the 24-Parganas, Nadia, Jessore, Khulna, Cuttack and Balasore, moderate in Puri and Singhbhum and light elsewhere. The recent rain has been beneficial to the winter rice crop, but more rain is wanted for the purpose in parts of Midnapore and Murshidabad. Harvesting of *bhadoi* crops is still in progress. Preparation of lands for *rabi* crops continues and sowings have commenced in some districts. Prospects of standing crops are good. Some damage to paddy by insects and to *kalai* by floods is reported from Sambalpore and Murshidabad respectively. The price of common rice has risen in Midnapore, Gaya, Saran, Darbhanga, the Sonthal Parganas, Hazaribagh, Ranchi, Manbhum and in all the districts of the Presidency Division except the 24-Parganas and has fallen in Champaran, Monghyr and Bhagalpur. Cattle disease is reported from Midnapore, Gaya, Champaran, Muzaffarpur, Monghyr, Purnea, the Sonthal Parganas, Angul, Puri, Hazaribagh and Manbhum. The supply of fodder and water is ample throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

PERSIAN GULF.

Shatt al Arab River—Position of Buoys.

No. 433 (third publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 92M. of 1910), are republished:—

Position.—(1) Black Conical Buoy:—

N. 46° W. about 2·6 miles from the Outer Bar Buoy.

(2) No. I Buoy—

N. 39° W. from Black Conical Buoy.

Remarks.—The whole Channel appears to have shifted to the eastward, and the Directions in the Persian Gulf Pilot are not to be relied upon, as there is very little water to the westward of the Buoys.

The following appears to be the best course for entering the River:—

Pass about 5 cables to the eastward of the Outer Bar Buoy and steer for a point 4 cables to the eastward of the Black Conical Buoy; then alter course to pass about 3 cables to the eastward of No. I Buoy and from there proceed N. 40° W. until Fao Telegraph Station bears N. 69° W.

The discoloured water on the banks affords a guide to the Channel but is not to be relied on, especially after strong winds.

The above course will give a least depth of 3 fathoms over the Bar.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF WARDS' AND ATTACHED ESTATES IN THE LOWER PROVINCES FOR THE YEAR 1909-10.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 15th October 1910.

RESOLUTION—No. 2084T.—R.

READ—

The Report of the Board of Revenue on the Administration of Wards' and Attached Estates in the Lower Provinces for the year 1909-10.

Attention was drawn in the Resolution recorded last year on the Report for 1908-09 to the lack of punctuality displayed by the managers in submitting their annual reports and returns. The Lieutenant-Governor regrets to notice that there has been little improvement in this direction. The Board will be asked to inquire into the matter and insist on greater punctuality being ensured.

2. *Number of Estates under management.*—The number of estates under management at the close of 1909-10 was 213, against 209 in the previous year.

3. *Payment of Revenue and Cesses.*—There was a slight improvement in the payment of revenue and cesses, which amounted to 94 per cent. of the demand, as against 92·4 per cent. in the two preceding years. As in 1908-09, the Tagore Estate was the worst defaulter. The sale of the Midnapore property of this estate, by which is was intended to clear off arrears, was not effected, and a sum of Rs. 67,354 remained unpaid at the close of the year. If the transaction is not likely to be completed during the current year, it will be necessary to take further measures to ensure payment of the Government demand.

4. *Rent and Cesses due to Superior Landlords.*—There was an unsatisfactory falling off under this head, the percentage of total payments being 63·3 as against 67·4 in 1908-09. Many of the estates concerned are heavily in debt, and in the case of the Uttarpara Estate, which showed a balance of Rs. 73,544, the Board have found it necessary to sanction the sale of the properties of the estate to enable it to meet its liabilities.

5. *Collection of Rents and Cesses.*—Notwithstanding that the collections in several estates fell far short of the prescribed standard of 100 per cent., the result as a whole was satisfactory, inasmuch as the percentage on the current demand rose to 97·9 from 94·1 in the previous year. The lowest percentage (89·9 is reported from the Patna Division, and the shortage has not been sufficiently explained.

6. *Balance of Rents and Cesses due to Estates.*—The balance aggregated Rs. 1,14,78,412, or 120·7 per cent. of the total current demand, as against 121·2 per cent. in the preceding year. The Dumraon Estate alone is responsible for 42·6 per cent. of the total balance, a large proportion of which is irrecoverable. This is only one of several instances in which large irrecoverable arrears are being carried forward from year to year in spite of the repeated orders of Government, and the Lieutenant-Governor fully endorses the remarks made by the Board at the end of paragraph 7 of the Report. Collectors should pay greater attention to this very important subject than they have hitherto done, and should see that the managers realize their responsibilities in the matter. The unfavourable remarks recorded in last year's Resolution on the subject of the outstanding balance due to the Janbazar Estate require a certain amount of modification in view of the fact that the balance has been reduced by nearly 12 per cent. But it is evident that the manager has not yet employed all the measures which it is open to him under the law to adopt. Much yet remains to be dóne, and the local officers have been warned that they must show more energy in realizing the claims of the estate.

The number of certificates filed was 434 less than in the previous year, while the amount realized was 42·8 per cent. of the total amount covered by the certificates, as against 25·8 per cent. in 1908-09. This is satisfactory, but there is still much room for improvement.

The percentage of recoveries by civil suits (31·1) exceeded that recorded for the previous year (27 per cent.). The increase is however slight and may well be improved upon.

7. *Payment of Debts.*—The total liabilities at the beginning of the year amounted to Rs. 3,18,15,674, of which Rs. 49,93,151 were paid, the percentage of payments being about 15·7, as against 16·3 in the two previous years. Progress in the liquidation of debts is slow, the reason being that some of the larger estates are hopelessly involved. As observed in the Resolution on the Report for the year 1907-08, the only satisfactory measure to be adopted in the case of such estates is to secure their prompt release.

8. *Cost of Management and Expenditure on Improvements.*—The cost of management rose to 11·1 per cent. from 10·5 and 10·7 in the two previous years, respectively Owing partly to the payment of grain compensation allowance and partly to various other causes, the standard of 10 per cent. was exceeded in all the Divisions except the Presidency. The total amount spent on works of improvement, schools, and dispensaries was Rs. 4,73,845, or over 7 per cent. of net income, the corresponding figure for the preceding year being about 6·7 per cent. Agricultural experiments were made in various estates, but with indifferent results, due partly to want of expert supervision and partly to

unfavourable weather or other causes. The Lieutenant-Governor notices with satisfaction that the cattle-breeding operations in the Hathwa Estate have already led to a marked improvement in the quality of the cattle in many parts of the estate. A herd of country cattle belonging to Government was made over to the Bettiah Estate to be preserved and used solely for the benefit of the tenantry.

9. *Education of the Wards.*—The arrangements for the education of the wards and the results attained continue to be on the whole satisfactory. The hostel opened at Hazaribagh for zamindars' boys is reported to have done good work, and the hostel attached to the Ranchi Zilla School accommodated 16 boys from wards' and encumbered estates.

10. The thanks of the Lieutenant-Governor are due to the Board for their administration of estates under the management of the Court of Wards. His Honour notices with satisfaction the useful work done by Miss Cornelia Sorabji as Lady Assistant to the Court of Wards. The good services of the other officers commended by the Board will be noted in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE LAND REVENUE ADMINISTRATION OF THE LOWER PROVINCES FOR THE YEAR 1909-10.

REVENUE DEPARTMENT—LAND REVENUE.

Darjeeling, the 15th October 1910.

RESOLUTION—No. 2087T.R.

READ—

The Report of the Board of Revenue on the Land Revenue Administration of the Lower Provinces for the year 1909-10.

The Land Revenue Department of the Board was administered by the Hon'ble Mr. F. A. Slacke, C.S.I., throughout the year. The Partition and Land Acquisition Branches were administered by the Hon'ble Mr. W. C. Macpherson, C.S.I.

2. *Demand, Collections, Balances and Remissions.*—The current demand of the year was Rs. 2,89,34,451, or Rs. 47,000 in excess of that of the previous year. The percentage of total collections on total demand amounted to 97·29, a figure in excess of those recorded during either of the preceding years. The improvement, which was due to the good harvests obtained throughout the year, is still more noticeable in the high percentages of total collections on current demand (101·18), and of current collections on current demand (98·22), both figures representing maxima for the quinquennial period.

3. *Road and Public Works Cesses.*—As intimated to the Government of India in Financial Department letter No. 230T.—Cess, dated the 30th June 1910, it has been decided to dispense with the separate Annual Road and Public Works Cess Report, and to incorporate in the Land Revenue Administration Report all information relating to the administration of cesses. The current demand on this account shows an increase of over Rs. 2,47,000, due partly to the results of revaluation, partly to the extension of the Cess Act to new areas. The percentage of total collections on current demand amounted to 99·4, showing a slight improvement on the collections of the previous year, but still leaving a large balance of arrears. There is no doubt that the recent revision of assessment, while it has resulted in a more equitable distribution of the tax, has to a certain extent rendered collections more onerous. The difficulty should however be of a temporary character only, and it is hoped that by next year considerable improvement will be shown in collections of both current and arrear demands. An increase in the demand accounts for the low percentage in Murshidabad (92·6), while the novelty of the tax in the Sonthal Parganas explains the low percentage of 81·8 obtained in that district. The figure for Midnapore, 94·2, is deceptive, as very heavy payments are reported to have been made shortly after the end of the year but before the expiry of the period of grace. The Board will be asked to consider whether the returns should not embrace payments made within the period of grace. Since the close of the year the Bengal Cess (Amendment) Bill has become law; it amends the procedure laid down in the former Act (IX of 1880) with a view to permitting the use of records of rights in revaluation operations.

4. *Money-orders.*—No satisfactory explanation has been offered of the decrease, amounting to over Rs. 66,000, in the value of money-orders by which land revenue and cesses were remitted during the year under review. It was suggested that payments might with advantage be made at subdivisional treasuries; but the Bihar Landholders' Association were not in favour of the proposal, which has accordingly been dropped. There was an increase in the number and value of rent money-orders during the year under review. The decrease in the number of money-orders refused is satisfactory, signifying, as it does, an improvement in the relations between landlords and tenants.

5. *Coercive measures.*—The revenue sale law was, as usual, administered with leniency and moderation. The good harvests obtained during the year account for the decrease in the number of defaults. The number of certificates

issued on account of all demands inclusive of cess decreased from 140,666 to 135,315, the decrease being especially noticeable in connection with cess and embankment dues. The number of cases disposed of amounted to 79·2 per cent. of the total number for disposal, as compared with a percentage of 77·8 obtained during the preceding year. The Presidency Division showed the largest number of cases pending for over six months, the increase (from 689 to 2,994) being attributable mainly to the issue of a large number of certificates for the recovery of costs of settlement operations in Fatehsingh in Murshidabad district. Had arrangements been made for the local collection of these costs, which in many cases were very small, there would have been no necessity for the issue of the great majority of these certificates.

6. *Condition of the raiyats in Government Estates and expenditure on improvement and education.*—The general condition of the raiyats in Government estates during the year under review shows considerable improvement over any of the three preceding years. The Khulna cyclone did a large amount of damage, but the reports from other districts were for the most part very favourable. The total expenditure on miscellaneous and sanitary improvements declined from Rs. 1,28,600 to Rs. 1,15,456. There was a slight decline in expenditure on education, but that on roads and communications increased from Rs. 1,34,111 to Rs. 1,72,459. Difficulties connected with the equitable allotment of funds for the improvement of Government estates are responsible for the want of system noticeable in expenditure under the different heads. Steps are, however, being taken, in consultation with the District Officers, to remedy this defect. The general increase in the number of both schools and pupils is satisfactory.

7. *Advances.*—The general agricultural depression prevailing during the year 1908-09 was responsible for the large number of loans advanced that year under the Land Improvement and Agriculturists' Loans Acts, Government recognizing that the issue of such loans is the best method of restoring confidence amongst the agricultural classes in times of scarcity. As a consequence of the good harvests obtained during the year under review there has been a marked decline in the number and amount of such advances, which totalled only Rs. 3,52,532 and Rs. 18,82,003, respectively, as compared with Rs. 9,74,780 and Rs. 35,41,044 in the previous year. The large advances made during three consecutive years of scarcity have, however, resulted in the accumulation of heavy outstanding balances. A sum of Rs. 37,23,330 advanced under the Agriculturists' Loans Act was recoverable during the year, of which only Rs. 24,99,805, or slightly more than two-thirds of the total, was collected. Land improvement loans are naturally more easy to collect, but even in their case the balance outstanding at the end of the year amounted to the large sum of Rs. 16,20,299. It is hoped that, in view of the general improvement in this year's prospects, collections will be carried on with energy and success; but District Officers should be careful to arrange wherever possible for the collections to be made locally, and the certificate procedure should be resorted to only when the efforts to collect locally have failed.

8. *Drainage and Irrigation.*—As in previous years, the most extensive drainage and irrigation operations were conducted in the Presidency Division. Progress is being made with the Magrahat drainage scheme, and large areas have already been brought under cultivation as a result of the construction of the Diamond Harbour sluice. Government embankments were maintained in efficient repair throughout the year. The provisions of the Bengal Embankment Act have been extended to the Sonthal Parganas, where the construction of an embankment along the bank of the Godda river is contemplated.

9. *Partitions.*—There was a decrease in the number of partition cases instituted during the year, and also a decrease in the number disposed of. It is satisfactory to observe that only 991 cases were pending at the close of the year, as compared with 1,024 and 1,069 pending at the close of the two preceding years. It has been ascertained that delays in the realisation of stamp fees required for the execution of partition deeds are responsible for repeated adjournments in partition cases. The draft Bill to amend the Public Demands Recovery Act contains provisions for the realization of these fees by the certificate procedure,—a measure which will, it is hoped, result in less

protracted proceedings. Proposals that Collectors should be empowered to confirm partitions and that appeals should be curtailed are under consideration.

10. *Land Registration.*—Mutations have been systematically reported, and the registers have been kept up to date. The number of applications was less during the year under review than during the previous year, and fewer applications were pending at the close of the year.

11. *Sundarbans.*—Difficulties connected with the maintenance of protective and drainage works have necessitated a change of policy in the administration of the Sundarbans. It is proposed to abandon the *raiyatwari* system in favour of a modified system of leases to capitalists, under which the rights of the actual cultivators will be safeguarded, unnecessary sub-infeudation prevented, and the proper maintenance of embankments and sluices by the lessees secured. The requisite rules and forms are now under preparation. The Fraserganj Government estate will similarly be leased out to a capitalist who will manage it to the best advantage in the interests of the tenants, whose rights will be protected. Tenders were called for and satisfactory offers for the lease have been received. It only remains to conclude the negotiations.

12. *Working of the Tenancy Act.*—The Bengal Tenancy Act continued to work satisfactorily. The withholding of rent receipts and the levy of *abwabs* and other exactions have by no means ceased, but it is satisfactory to observe that the tenants are gradually learning to know their rights and to resist illegal demands. Settlement operations have a salutary effect in teaching tenants their rights and privileges, while the general spread of education tends to the same result. The Chota Nagpur Tenancy Act, 1908, was extended to the district of Manbhum in December 1909.

13. *Weather, Crops, Prices of Food, Wages, Material Condition of the People, etc.*—From an agricultural point of view the seasons have been favourable. The rainfall recorded during the year was in excess of the normal, and was in some divisions double the amount obtained during 1908-09. It is true that in many areas there was excessive rain during the month of August, resulting in damage to the *bhadoi* crop; but even the *bhadoi* returns for the year under review show some improvement over those of last year, while the *aghani* and *rabi* harvests yielded large outturns. The good harvests obtained have given confidence to the agricultural classes, who were considerably depressed by the adverse conditions of the three previous years. There was a general fall in the prices of food-grains. Emigration was noticeably less during the year under review, and as a consequence the demand for labour increased, and with it the rates of wages in the industrial areas. In the agricultural areas, where the demand for labour is more easily met, wages remained stationary or showed a slight upward tendency. With the fall in prices, and no corresponding decrease in wages, there was a general improvement in the material condition of the labouring classes, which showed itself in an increased demand for petty luxuries.

14. The Lieutenant-Governor thanks the Board for their administration of the Land Revenue Department. The names of officers mentioned as deserving of special commendation have been noted by the Lieutenant-Governor and will be recorded by the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF AGRICULTURE BENGAL, FOR THE YEAR ENDING THE 30TH JUNE 1910.

REVENUE DEPARTMENT—AGRICULTURE.

Darjeeling, the 17th October 1910.

RESOLUTION—No. 2122T.—R.

READ—

The Report of the Department of Agriculture, Bengal, for the year ending the 30th June 1910.

Charge.—The Department of Agriculture was under the charge of Mr. W. R. Gourlay, I.C.S., up to the 10th February 1910, and then of Mr. W. H. Buchan, I.C.S.

2. *Organisation.*—Proposals for the organization of a permanent staff for the Agricultural Department are now under the consideration of the Government of India. They are confined to present requirements, including those of the Provincial Agricultural College.

3. *Agricultural Stations.*—No new agricultural station was opened during the year. The Lieutenant-Governor agrees that no more stations should be started until those that have been opened are placed on a proper footing and men have been trained to take charge of new ones.

4. *Scientific Experiments.*—The Agricultural Chemist conducted a series of experiments on the periods of maturity of certain varieties of Bengal sugarcane. His observations have resulted in fresh knowledge of their sugar-yielding qualities, which will shortly be published as a record of the Department. The cultivation of sugarcane by the Bihar Planters' Association was not successful. The Economic Botanist made good progress in his plant-breeding work. A number of experiments with jute were carried out at the Cuttack Agricultural Station, and the authorities of the Hastings Jute Mill have reported favourably on the quality of the jute produced; but as the crop was heavily manured and the cultivation expensive, it is not likely that cultivators will profit directly by such experiments. It is reported that jute cultivation has been practically abandoned by the planters in Bihar in consequence of the fall in prices.

The prospects of the cultivation of cotton have not so far been very promising in this Province. At the instance of the Imperial Cotton Specialist, who visited Sabaur and other places during the year, further experiments are being made with the most promising varieties.

Mr. E. Vandekerkhove, the Belgian Flax Expert, continued his work at Dooriah in the district of Muzaffarpur under agreement with the Bihar Planters' Association. The detailed results of his work have been separately published by the Association. The flax produced obtained a good price on the market and the experiment gives great promise of success.

In addition to these special experiments a large number of experiments and demonstrations were conducted throughout the Province by members of Agricultural Associations and some progress was made in popularising new crops and improved methods of agriculture. The Director of Agriculture has at present under consideration a scheme for organizing these isolated experiments and demonstrations so as to make them more useful to the public.

5. *Sericulture.*—The operations for the improvement of the silk industry in Bengal, now conducted under the general control of a committee consisting of the Director of Agriculture, the Collector of Murshidabad, and four representatives of the principal silk firms in Bengal, have made some progress under the superintendence of Babu Apurba Kumar Ghose. The main object is to rear and distribute pure and healthy seed as widely as possible in the silk-rearing districts, through the agency of village nurseries. Six new nurseries were established during the year—three in the Murshidabad district, two in Birbhum, and one in Midnapore. Altogether there are now eighteen nurseries. The experience of the year shows that progress is being made in the eradication

of the disease known as *pebrine*, which was one of the principal causes of the decline of the silk industry. The seed of the nurseries is growing steadily in popularity in the Bengal districts, and requisitions for it were received from Rajshahi and Malda in Eastern Bengal and Assam, and from Belgaum, Hyderabad, Ahmedabad, Gwalior, and other parts of India. To meet the increasing demand two more rearing houses were added to the Central Nursery at Berhampore. The total receipts from the sale of seed amounted to Rs. 6,566 as compared with Rs. 5,874 in the preceding year, and there was a small profit on the working of the nurseries. The experiments made with Italian mulberry in the Central Nursery and those made at Calcutta in the cold storage of seed and cocoons obtained some success. A class for the training of the sons of rearers has been established in the Central Nursery at Berhampore. The course of instruction extends over a year, and six stipends of Rs. 8 a month have been founded. There are six boys now under training.

6. *Agricultural Education.*—The Provincial Agricultural College at Sabaur is now ready and work will be commenced in November. The staff in residence consists of a Principal, an Agricultural Chemist, an Economic Botanist, Assistant Professors of Agriculture, Botany, Mycology and Entomology, an Assistant Mycologist and an Assistant Entomologist; and the employment of an Assistant Professor of Chemistry, Physics and Mathematics, and a Demonstrator in those subjects has recently been sanctioned. In the first year only about 20 students will be admitted, of whom one-third will come from Eastern Bengal and Assam.

No progress has been made in the matter of agricultural education in ordinary schools. The question of improving the agricultural classes opened in the Cuttack, Gaya, Dumraon, Hazaribagh, and Burdwan Schools has recently been considered by a Board of Examiners, on whose recommendation Government has ordered the classes at Burdwan, Hazaribagh, and Cuttack to be closed for the present. The question of teaching agriculture in certain selected high schools is now under consideration, but the great difficulty is the want of suitably trained teachers, and no great progress in this direction can be expected till these are provided.

The practical training of the sons of cultivators was continued, principally at the Cuttack Farm. An attempt is being made to extend the system to other farms with the help of the local Agricultural Associations.

7. *Agricultural Associations, Fairs, and Shows.*—The Lieutenant-Governor notices with satisfaction that the members of the Patna and Orissa Divisional Associations and of the Sambalpur District Association continued to take much interest in the improvement of agriculture. With the opening of the College at Sabaur, the Bhagalpur Divisional Association will have opportunities for extending its activities.

The Director has drawn attention to the specially useful work done in connection with Agricultural Associations by Babu Sarada Charan Mitra, Rai Lalit Mohan Sinha Roy Bahadur of Chakdighi, and Babu Purnendu Narayan Sinha, Secretary to the Patna Divisional Association.

The fairs and shows held during the year, of which a brief account is given in Appendix II to the Report, received grants-in-aid from Government aggregating Rs. 6,978. Arrangements are being made to render these shows more useful auxiliaries to the Department.

8. The well-boring operations made very little progress during the year, only 38 borings having been made in the districts of Gaya, Bhagalpur, Patna, Shahabad, and Champaran. The question of the controlling agency, on which success largely depends, is now under the consideration of the Director.

9. *Publication of Agricultural information.*—Besides the Quarterly Journal of Agriculture, the Department published and circulated widely leaflets on a number of subjects in English and the vernaculars.

10. *Fisheries.*—On the completion of the fishery survey of the Bay of Bengal, the control of the Fishery Department was, in accordance with the arrangement prevailing in most European countries, made over to the Director of Agriculture on the 15th January 1910. In future the enquiry will be confined to the inland fisheries of the Province. The present staff consists of two

assistants—Mr. B. Das and Mr. M. Mohsin—who have visited various fishing centres in Europe and America and have acquired a general knowledge of the functions of a Fishery Department. During the year under report these two assistants devoted their time principally to two special lines of enquiry, viz. (1) experiments in the artificial propagation of carp, and (2) investigation into the spawning grounds of *hilsa*. A scheme for the future conduct of the fishery operations is now under the consideration of the Government of India.

11. *Indigo*.—Mr. C. J. Bergthiel continued his research work at Sirsiah. No results have yet been obtained of sufficient finality to warrant publication.

12. *Conclusion*.—The thanks of the Lieutenant Governor are due to Messrs. Gourlay and Buchan for their administration of the Department. His Honour also notices with satisfaction the good work done by the several officers mentioned in paragraph 72 of the Report.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that a copy of it, with a copy of the Report, be submitted to the Government of India.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy to the Govt. of Bengal.

RESOLUTION ON THE REPORTS ON INLAND EMIGRATION FOR THE YEAR ENDING THE 30TH JUNE 1910.

GENERAL DEPARTMENT—EMIGRATION.

Darjeeling, the 15th October 1910.

RESOLUTION—No. 3875.

READ —

The Reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1910, submitted by the Superintendents of Emigration, Calcutta, the Sonthal Parganas, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum and Sambalpur.

READ ALSO—

The remarks of the Commissioners of the Bhagalpur, Orissa and Chota Nagpur Divisions on the reports submitted by the Superintendents of Emigration in their respective divisions.

DURING the year under review the question of reducing the area still open to recruitment under Chapter III of Act VI of 1901, with special reference to the prohibition of recruitment by licensed contractors in the districts of the Presidency Division, came under the consideration of Government. It was decided that the ultimate abolition of this system of recruitment was an ideal to be kept in view and to be attained gradually, but that it was not advisable, in view of the present condition of the tea industry, to take summary steps to dispense with the supply of labour by contractors. A notification was, however, issued closing the districts of Howrah and Sambalpur to recruitment under Chapter III, with effect from the 1st of August 1910.

2. While seeking to check abuses which arise only too easily in the conduct of recruiting operations by contractors in populous areas, Government has on the other hand done much to encourage direct recruitment by firms and associations of long standing and good reputation. An attempt has at the same time been made to fix the responsibility of the agents of such associations. By Notification No. 4761, dated the 5th November 1908, garden-sardars working under the control of the Tea Districts Labour Supply Association, the Assam Labour Association and the Langai Valley Employers' Recruiting Association were authorized, on certain conditions, to forward unindentured emigrants without producing them before a Government Registering officer. The local agents of the associations were, however, required to register correctly the names and particulars of such emigrants, and were also made wholly responsible for the work of the sardars, their licenses being rendered liable to cancellation for malpractices committed by their subordinates. It was subsequently brought to the notice of Government by the Tea Districts Labour Supply Association that this condition, by which Government had intended to emphasise the responsibility of the local agents for the acts of sardars, was unduly severe. The condition was therefore relaxed by Government, by the issue of a revised notification, under which a local agent's license would only be liable to cancellation for the fault of garden-sardars under his control, if it were found that he had failed to exercise due care in preventing, to the best of his ability, misconduct on their part, or had failed to report to the District Magistrate any illegal act committed by them which came to his notice. A new clause was subsequently added to the conditions prescribed in the revised notification, requiring every garden-sardar to furnish the local agent to whom he is accredited with a true and correct account of every person engaged by him and to correct any description volunteered by any such labourer, which the sardar knows to be untrue or inaccurate. Local officers were also informed that any breach of this rule would make a sardar liable to be punished under clause (*b*) of section 174 of the Act.

3. The number of emigrants of all classes recruited in Bengal, Madras, the Central Provinces, the United Provinces and the adjoining Native States, who embarked at Goalundo during the year was 33,744 as compared with 56,791 in the preceding year. The decrease is attributed chiefly to the greater prosperity of the labouring classes on account of the good harvests generally obtained in the recruiting districts. Of these emigrants 7,021 were recruited by licensed contractors and 25,447 by garden-sardars of all classes, while 1,276 emigrated from Native States.

4. A peculiar feature of inland emigration during the year under review is the increase in the number of Native States labourers despatched to Assam. Thus while the numbers of emigrants recruited by contractors and by garden-sardars show a decline of 46 and 29 per cent. respectively, the number of free labourers increased from 226 to 1,276. An enquiry is being made into the cause of this remarkable increase.

5. Five thousand nine hundred and forty-three emigrants were registered in Bengal under Chapter III, and 2,141 under Chapter IV, as against 8,048 and 3,183, respectively, in the previous year. Of the former class of emigrants, 1,039 (as against 733 in the preceding year) were forwarded without being placed on contract, and of the latter class 813 (as against 839 in the year 1908-09). Ninety-four emigrants, as against 300 in the previous year, were recruited by special garden-sardars under section 90, while 11,925 unindentured emigrants were engaged by garden-sardars working under the control of approved associations, as against 25,774 in the year 1908-09.

6. The numbers of licensed contractors and recruiters working during the year were 27 and 236, respectively, as against 22 and 294 in the previous year. The licenses of 6 contractors and 39 recruiters were cancelled during the year for misconduct and irregularities. The total number of garden-sardars employed in this province was 8,507, as against 9,112 in the year 1908-1909. Of these, 1,109 conducted their recruiting operations under the procedure laid down in Chapter IV, 60 held special permits under section 90, and the remaining 7,338 worked under the control of approved associations. As in the previous year the work of the local agents of these associations is reported to have been generally satisfactory, and no Superintendent of Emigration had occasion to cancel any local agent's license.

7. If the number of criminal cases is any indication of the extent to which abuses exist, it is satisfactory to observe that there was during the year a decrease of 35 per cent. in the number of such cases instituted in connection with recruitment operations within the province. It is certain that the decline is not wholly due either to reductions in the recruitment area or to the decrease in the number of labourers recruited. Nor can it be ascribed to diminished vigilance on the part of the local officers, who are prompt to report instances of abuses within their local jurisdictions and to punish illegalities that are brought to light. It has become a matter of general knowledge that labourers are brought by unlicensed recruiters from Native States and made over either to forwarding agents or to contractors licensed under the Act. The local officers are drawing the attention of the agents and contractors to their responsibilities in the matter, and are prepared to take more stringent measures if warnings are found to be ineffective. Steps are also being taken to suppress the practice of smuggling emigrants from areas closed to recruitment under Chapter III of the Act to contractors' depôts situated outside those areas, where they are registered under false names and particulars. It is, however, expected that such illegalities will steadily diminish, and this result will be accelerated if Registering officers take pains to satisfy themselves, before sanctioning registration, that the emigrants concerned have been lawfully recruited within their respective jurisdictions. The attention of Commissioners of Divisions is being drawn to the importance of this, and they are being requested to impress upon all Registering officers their responsibilities in the matter.

8. The depôts, rest-houses and places of accommodation for emigrants were generally well maintained, and their sanitary condition was satisfactory.

9. There was a falling off both in receipts and in expenditure incurred during the year in connection with the transport of labour to Assam, the figures being Rs. 10,870 and Rs. 20,860, respectively, as against Rs. 13,165 and Rs. 23,420 in the year 1908-09. The decrease in the receipts was due chiefly to the diminished number of emigrants registered under the Act.

10. The Lieutenant-Governor desires to thank the local officers for their assistance in the administration of the act, and in particular to express his appreciation of the energy and ability displayed by Dr. C. Banks in the performance of his duties as Superintendent of Emigration, Calcutta.

By order of the Lieutenant-Governor of Bengal,

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE LATE VARIETY OF THE SESAMUM (*til*) CROP OF BENGAL FOR THE YEAR 1910.

[On an average of the five years ending 1908-09 the area under *til* in the territory to which this forecast relates represents about 5·3 per cent. of the total area under this crop in British India.]

Explanatory.—This forecast deals with the preliminary estimates of the area and outturn of the late variety of the crop.

Character of the season.—The late variety of *til* or sesamum is cultivated chiefly in Sambalpur, where it covers about half the total area under the crop in the Province. The season has been favourable and the outturn of the crop is reported to be above the normal in this district. Other districts of importance are Angul, Palamau, Singhbhum, Hazaribagh, Manbhum, Midnapore, Nadia, Bhagalpur and Sonthal Parganas. In these and in most of the remaining districts the weather conditions have been favourable and the condition of the crop is reported to be good. Some damage was caused by floods in North Bihar and also in Nadia, Murshidabad, Patna and Shahabad. Sowings began at the normal time. They are reported to be still going on in Orissa, Chota Nagpur, and also in Burdwan, 24-Parganas and Nadia.

Area sown.—The total area sown up to date is 157,900 acres. Last year's area under the crop was 187,100 acres. The normal area is reported at 220,000 acres.

According to the estimates of the District Officers the outturn of the crop for the whole Province comes to 102 per cent. In some districts the estimates appear to be too low, and I think it probable that the outturn of the crop will not be below 110 per cent.

W. H. BUCHAN,
Offg. Director of Agriculture, Bengal.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR SEPTEMBER 1910.

I. *Character of the Season.*—The rainfall was general over the Province; the fall was in excess of the normal in South Bihar, Chota Nagpur and in 24-Parganas, Nadia, Jessore, Monghyr, Darjeeling, Cuttack, Puri and Sambalpur and below the normal in the rest of the Province. The statement showing the average rainfall during the month in different districts is appended.

II. *Progress of Agricultural Operations.*—Transplantation of winter rice was completed during the month. Weeding of winter paddy and harvesting of *bhadoi* crops continued.

III. *State of Standing Crops.*—The *aman* paddy and sugarcane and other crops are doing well.

IV. *Prospects and the Probable Outturn of Harvests.*—Prospects of the *aman* paddy are good so far. Outturn of the *bhadoi* crops has been good in many districts. There was, however, considerable damage by floods in August in Darbhanga, Champaran, Muzaffarpur and also in other districts of Bihar, Cuttack, Angul and Puri.

V. *Damage to Crops.*—There was no serious damage during the month under report by any natural calamity. Some injury was done by floods and excessive rain in Jessore, Saran and the Sonthal Parganas. Some damage to winter paddy by insects is reported from Cuttack and Sambalpur.

VI. *Condition of Agricultural Stock.*—The condition of cattle was, on the whole, satisfactory. Cases of cattle-disease were reported from Burdwan, Midnapore, the 24-Parganas, Murshidabad, Jessore, Patna, Gaya, Angul, Puri, Sambalpur, Hazaribagh, Ranchi, Manbhum and from all the districts of Tirhut and Bhagalpur Divisions except Monghyr and Darjeeling.

VII. *Failure of Pasturage and Fodder.*—Fodder and water-supply was sufficient throughout the Province.

VIII. *Prices of Food-grains.*—Prices of food-grains are lower than in the corresponding period of last year. The price of common rice rose in five districts and fell in 14 during the second fortnight of the month under review.

IX. *Condition of Agricultural People.*—The condition of agriculturists is, on the whole, good.

* The report is for the week ending the 15th October 1910.

General Summary.—During the week under report rain fell all over the Province except Birbhum, Murshidabad, Hazaribagh, Manbhum and practically all the districts of Bihar except the Sonthal Parganas. The fall was heavy in Orissa, Khulna, Jessore, the 24-Parganas, Midnapore, Burdwan and Howrah, moderate in Nadia and Cooch Behar and light elsewhere. Harvesting of *bhadoi* crops still continues in some districts. Sowings of *rabi* crops have commenced in most districts, but the progress in Angul thereof has been retarded by excessive rain. Winter paddy and sugarcane are doing well. Insects did some damage to paddy in Sambalpur. The price of common rice has risen in Midnapore, the 24-Parganas, Jessore, Bhagalpur, and has fallen in Bankura, Nadia, Murshidabad, Patna, Darbhanga, Monghyr, the Sonthal Parganas, Hazaribagh, Ranchi, Singhbhum and Cooch Behar. Cattle disease exists in Midnapore, Patna, Gaya, Saran, Muzaffarpur, Purnea and in all the districts of Orissa and Chota Nagpur except Cuttack, Balasore and Singhbhum. The supply of fodder and water is sufficient throughout the Province.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF SEPTEMBER 1910.

During the month of September the rainfall was general over the Province. It was in excess of the normal in the 24-Parganas, Calcutta, Nadia, Jessore, Patna, Gaya, Shahabad, Monghyr, Darjeeling, Sambalpur, Cuttack, Puri, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum, and below the normal elsewhere. The defect was well marked in Khulna, Champaran and Angul. The departure from the normal was—3·57 inches in Khulna, —3·40 inches in Champaran and —3 70 inches in Angul. On an average South-West Bengal received 8·06, Bihar 8·79, Orissa 11·70 and Chota Nagpur 9·39 inches of rain, Orissa and Chota Nagpur being the only divisions where the fall was above the average. Expressed in percentage figures, the total rainfall from January to September 1910 was 93 per cent. of the normal in South-West Bengal, 96 per cent. in Bihar, 104 per cent. in Orissa and 112 per cent. in Chota Nagpur.

The following table compares the rainfall in the four Divisions during the month of September with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past nine months of the year 1910:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	Actual rainfall of first nine months of 1910 expressed as a percentage of the normal fall for the period.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; lr., lightning reflection.
